Message from the Dean
Welcome to the School of Education at Medaille College. We offer undergraduate and graduate education programs at the Amherst and Buffalo Campuses. The School of Education is dedicated and committed to engaging students in a positive learning environment. Our academic programs are exciting, but rigorous. Additionally, we offer multiple delivery systems to meet the needs of diverse learners. We believe in training educators who have the ability to meet the future needs and requirements of the education profession.

We have a supportive faculty and staff whom are available and accessible to students. We believe in the development of positive and professional relationships with the faculty. I’m glad you have chosen Medaille and I wish you success in your academic career at the college.

Illana R. Lane, Ph.D.
Dean, School of Education

Medaille College
Medaille College traces its roots to 1875 when it was founded by the Sisters of St. Joseph as an Institute to prepare teachers among the religious community for Catholic schools. The tradition of providing an emphasis on training teachers has been with us since the beginning. In 1937, the Institute received an absolute charter from New York State and was named Mount St. Joseph Teachers College and was chartered to grant baccalaureate degrees in Education. In 1968, the Sisters of St. Joseph, led by Alice Huber, SSJ, Ph.D., initiated a change in the charter, which would create a new college, accessible to all men and women. New York State granted this charter and Medaille College was born.

Mission Statement of Medaille College
Medaille College concentrates on excellence in teaching, with an emphasis on personal attention to its diverse student body. Its curriculum provides a solid liberal arts and sciences foundation with early access to career-oriented education. The faculty and all of those involved in the mission of education challenge students and themselves to the highest possible standards of achievement, but that challenge is balanced by support for every individual student and a concern that each one succeeds.

School of Education

Mission of the School of Education at Medaille College
The School of Education focuses on excellence in teaching with an emphasis on personal attention to our diverse learners. Our career-oriented curriculum builds upon a liberal arts and sciences foundation as we guide students toward initial and professional certification. This program is flexible because of the multiple delivery systems available to traditional students and practicing professionals. The staff and faculty are dedicated and committed to graduating students who are effective teachers. As reflective practitioners and scholars guided by constructivist approaches (Vygotsky, 1978) to learning and teaching, we challenge our students and ourselves to reach high standards of achievement through the
relentless pursuit of best teaching practices. Learning occurs in our classrooms within a caring environment, with dedicated faculty who advise, mentor, and guide students from their admission to the program through to the completion of their capstone courses. Ultimately, we are invested in learning, teaching, and the continued success of our students.

**Vision of the School of Education at Medaille College**

The faculty of the School of Education consists of scholar practitioners focused on research-based best practice. We take pride in graduating men and women who can successfully contribute to pupil learning through their excellence in teaching. The School of Education continues to engage its experienced faculty in practitioner-focused curriculum in traditional and non-traditional instructional formats. It is the vision of the School of Education to be an effective and responsive provider of educational programs that meet emerging needs.

**Philosophy of the School of Education at Medaille College**

Medaille College focuses upon excellence in teaching with an emphasis on personal attention to its diverse student body. The education programs provide a solid foundation in the study, design, and implementation of instruction and evaluation in the classrooms of the twenty-first century.

The overarching philosophy of the SOE is constructivism. This philosophy is a unifying thread that is evident in all our education programs. At the root of constructivism Vygotsky (1978) is the belief that students make meaning for themselves. It is a student-centered model in which the teacher contributes more as a facilitator whose efforts assist students in developing their own understanding and learning. They base their own prior knowledge and building mental constructs on existing knowledge bases. Knowledge does not exist independent of the learner.

Our approach to teaching emphasizes challenging opportunities for our teacher candidates to learn (Vygotsky, 1978). Through coaching from faculty, learners develop meta-cognitive strategies to monitor and direct their own performance and learning. The learners assume responsibility for their own learning. Teacher candidates work collaboratively on real-world, authentic activities. They are guided to develop and bring their own framework and perspectives. They integrate multiple perspectives, which help pupils negotiate and generate meaning.

The Master of Education programs use research to teach prospective in-service teachers to design instruction for classrooms with diverse learners. Emphasizing critical thinking, research, and academic writing, teacher candidates are academically prepared to effectively design, implement, and evaluate curriculum for their schools and/or districts or boards.

Teacher candidates are encouraged to examine contemporary issues affecting curriculum and instruction within schools. Through integrated classes such as diversity, our students explore culture and society. Through courses like the history of education, teacher candidates learn how to examine how external forces influence school texts and
pedagogy. In addition to emphasis on curriculum and instruction in schools, our teacher candidates are encouraged to use technology to enhance their skills, projects, assignments, and delivery of instruction.

School of Education Claims

A process was established to systematically collect data that addresses the SOE’s four primary claims to the Teacher Education Accreditation Council (TEAC). Medaille College graduates are qualified and competent as demonstrated by the following claims.

Claim 1: Medaille College graduates know the subject matter in their certification area(s).

Claim 2: Medaille College graduates meet the needs of diverse learners through effective pedagogy and best teaching practices.

Claim 3: Medaille College graduates demonstrate scholarship supported by the use of technology.

Claim 4: Medaille College graduates are caring educators.

The BSED Childhood 1-6 Program fulfills this requirement in EDU 377; MSED Childhood 1-6 fulfills this requirement in EDU 504; MSED Adolescent Education fulfills this requirement in EDU 667. The BSED in Adolescent Education with Special Education has the hours spread over multiple courses to equal 150 volunteer hours. The BSED in Early Childhood/Childhood B-6 has 160 hours spread over multiple courses. For specifics by program see Appendix B.

Student Teaching  
All students in initial certification programs must complete student teaching. Students in Special Education will also complete one student teaching placement. Students earning a degree in Elementary Education or Adolescent Education must complete a minimum of 2 student teaching placements. If a student delays student teaching after the successful completion of coursework, he or she may be required to take additional coursework to remain current prior to the student teaching placement. Undergraduate students must have a minimum 2.5 GPA to participate in student teaching and satisfactory completion of all pre-requisites. Graduate students must have a minimum 3.0 GPA to participate in student teaching and satisfactory completion of all pre-requisites. Students who receive an unsatisfactory degree for one student teaching placement must attend “Refocus for Success” (see Appendix C) and repeat the student teaching experience. For detailed student teaching information go to www.medaille.edu/studentteaching. Student teachers who receive an unsatisfactory for two student teaching placements must follow the Student Teaching Improvement Plan.

Student Teaching Improvement Plan (IP)

The Improvement Plan (IP) was developed cooperatively by the Office of Student Teaching/Certification (OSTC) and the School of Education (SOE) effective fall semester 2008.

The IP was developed to provide student teachers who were unsuccessful in two student teaching placements to participate in instructional and non-instructional activities in school districts/boards and other educational agencies. The volunteer and/or paid experiences would provide the student with additional experiences with children over one calendar year (minimum of 50 hours) thus, assisting the student to be better prepared if they choose to apply for additional student teaching experiences via Medaille College.

Specific IP guidelines are enumerated below.
1. Implement an “Improvement Plan” (IP) that includes the completion of a minimum of 50 hours of instruction and non-instructional activities with children/youth in a “school” setting and in the appropriate grade levels.

2. An Improvement Plan Form must be completed for each instructional and non-instructional experience.

3. A signed letter of verification on school letterhead confirming the completed experience hours must be attached to teach IP Form.

4. After one calendar year, a student must apply for re-admission to the College and submit the improvement plan with documentation to the Office of Student Teaching/Certification (OSTC). The application for readmission must be approved by the Graduate Admissions Office and permission to participate in another student teaching experience must be granted by the OSTC.

5. A student who is granted approval as stated in #4 above must attend a “Refocus for Success” seminar prior to participating in the student teaching experience.

A student who earns a grade of unsatisfactory (U) for three student teaching experiences will not be permitted to participate in any future experiences.

Literacy Certification Practica
Along with academic classes, students enrolled in the MS Ed. in Literacy program or the Advanced Certification in Literacy program are required by the state of New York to complete 50 clock hours of college-supervised tutoring. These hours are completed in EDL 671, EDL 676, and EDL 681 which are held in our Reading Center on campus or off campus at an educational facility. Please go to the following link for more information on our center: www.medaille.edu/reading.

When completing these courses, perfect attendance by our graduate students is necessary for two reasons: New York State’s requirements for college supervised tutoring and the commitment made to children and parents who register and pay for tutoring. Therefore, we have adopted the following policy. Graduate students enrolled in the literacy practica (EDL 671, 676, and EDL 681) are permitted only one excused absence per practicum. Excused absences include illness or work-related obligations and must be approved by the instructor. Tutoring hours will be rescheduled through the course instructor. If you are unable to complete this obligation, students are required to schedule for another semester.

Graduation
Students must apply for graduation. Students must complete the pre-grad review form at the beginning of the semester they plan to graduate. The application for graduation can be found at www.medaille.edu/college/registrar/forms.aspx. BSED students must have a minimum 2.5 GPA to graduate with an education degree. MSED students must have a minimum 3.0 GPA to graduate with an education degree.

Conferral Dates are: December 31; May 31; June 30; August 31
There is a $50 application fee. The application and fee must be submitted to the Registrar’s Office.

Catalogs
It is important for students to read the undergraduate and graduate catalog for academic policies and procedures. Pay attention for deadlines (registration, drop/add, withdrawal, tuition. For additional information visit http://www.medaille.edu/academics/catalogs/)

Drop/Add/withdrawal
If you need to drop or add a course the process must occur on the first day of classes to avoid financial penalty.

Statement on Disabilities
Any student with a disability who believes he/she needs accommodation(s) in order to complete this course should contact the Academic Support Center as soon as possible. The staff in the Academic Support Center will determine what accommodations are appropriate and reasonable under the Americans with Disabilities Act. The Academic Support Center is located in the Main Building, Room M314, and can be reached by phone at (716) 880-2338.

Academic Integrity
Medaille’s faculty and administration expect all students to complete their academic assignments with honesty and integrity. Students who engage in any form of academic dishonesty (e.g., plagiarism, cheating on a test, forging a signature or an entire college document) will be dealt with severely, with penalties ranging from an F on a given assignment to failing a course or even academic suspension. Students should consult the Medaille College Policy Manual, Volume VI, (available online at http://www.medaille.edu/campuslife/handbooks/index.aspx) Paragraph 6.2.2.5, for full details on the college’s policy and procedures for handling formal charges of academic dishonesty.

Books
Students will view book information at Follet.com. Go to http://www.bkstr.com/webapp/wcs/stores/servlet/StoreCatalogDisplay?langId=-1&storeId=34406&demoKey=d&catalogId=10001. The SOE has a master booklist for all undergraduate and graduate courses.

E-mail
Students must use their MedailleOne e-mail account. You will receive your student teaching information, class cancellation, and important School of Education information through your Medaille e-mail. It is the student’s responsibility to access Medaille e-mail. You may include up to 20 hours of high school participation in a grade a 7-12 or 10 hours from an Early Childhood program under the directive of BOCES.

It is expected that you would accumulate approximately 75 contact hours in grades 7-9 and an additional approximate 75 contact hours in grades 10-12. These pre-student teaching experiences, for example, may include paid and/or volunteer experiences as a full-time teacher, a substitute teacher, and an educational assistant. Most of the contact hours should occur in a classroom setting. Other examples that may be considered are from after school programs, tutoring, interaction at a YMCA, working at a summer camp, involvement with the Boy Scouts and Girl Scouts, active involvement with youth at a place of worship, adult education and coaching.

Please note that no credit can be earned for babysitting, parenting, tutoring your own child, and nanny responsibilities. There are also restrictions on the number of hours that can be accepted. (Refer to Calculation Chart)

The variety of experiences, as enumerated above, provide you with a wealth of opportunities to accumulate the minimum of 150 hours. The pre-student teaching course instructors have the final decision on the number of previous hours and activities that are acceptable. Review the completed validation form to verify previous experiences.

Outstanding hours must be completed in grades 7-9 and/or grades 10-12 with students with special needs and also hours in the discipline specific area.

In order to assist you in compiling your previous pre-student teaching experiences and confirming outstanding hours and grade levels two (2) charts follow. Chart 1: —Acceptable Educational Experiences Categories and Permitted Hours][, and Chart 2: —Pre Student Teaching Experience Hours Review.

Chart 1 provides you with acceptable educational categories and maximum contact hours acceptable while Chart 2 assists you in briefly summarizing previous experiences and also includes outstanding contact hours and grade levels as determined by the course instructor.

Refocus for Success

A. What is Refocus for Success
Refocus for Success is a mandatory, one day seminar for student teachers who have earned an unsatisfactory (U) for 1 or 2 student teaching experiences. Student teachers who have had difficulties with the student teaching experiences but have earned a satisfactory (S) grade are also invited to attend Refocus for Success and may be recommended.

B. When is Refocus for Success Offered.
Refocus for Success is offered as follows.
Early January
Mid-March
Late August
Mid-October

C. The Refocus for Success Agenda
Refocus for Success has been streamline beginning the fall semester 2009. The seminar will be divided into three major components:

The mini-lessons taught by student teachers in attendance. The mini-lessons provide the students with an opportunity to self-evaluate; to be critiques and reviewed by peers; and to better understand the link teaching has to Planning, Instruction, and Evaluation. [PIE]
The second component of the seminar usually concentrate on 2 topics that focus upon specific student teacher needs such as classroom management techniques, professional responsibilities, or assessment strategies. The focus on a particular topic(s) will of course vary at each seminar meeting dependent upon the areas of student need. The areas of classroom management will be one of the topics that will be mandated.
The third component of Refocus for Success is a personalized contract. The contract outlines specific expectations for the student teachers upcoming student teaching experiences, along with appropriate dates to achieve the expectations.
The contract is developed by the Associate Dean, OSTC, SAGE Enrollment in consultation with the college supervisor and associate teacher and provided to the faculty member who will then meet briefly with each student teacher to review the contract. The contract must be signed by the student teacher before s/he may participate in a student teaching experience.
A copy of the signed contract is then forwarded to the college supervisor, so that s/he is aware of the contract expectations.
The Refocus for Success seminar begins at 9:00 am & concludes by 12:30 pm.

D. The Student Teachers Preparation for Refocus for Success
In preparation for the seminar, a student teacher is expected to submit two written mini-lesson plans prior to the seminar meeting, using the Medaille College format. Each mini – lesson must include at least two of the four (4) components; literacy, mathematics, science, and social studies.
Mini lessons submitted should be no longer than one page in length. The lessons can be introductory, developmental, reinforcement, and/or review. Examples of mini-lessons might include a “booktalk” a “vocabulary lesson” use of “map skills” or learning about “geometric shapes.”

The mini lessons will take no more than 5-7 minutes to teach.

Mini lessons (one page plans) must be submitted to the OSTC office at least one week before the date of the Refocus for Success seminar.

Student teachers are expected to have the mini-lessons in a binder/notebook for the Refocus for Success meeting, along with all materials required to teach the two lessons.
