

Subject Line: COVID-19 Update: Booster Vaccinations
Sent to All Students: December 1, 2021

This message is sent to all students and copied to all faculty and staff.

Students,

On November 29, 2021, the CDC strengthened its recommendation on booster doses to indicate that everyone 18 years of age and older should get a booster shot either 6 months after their initial Pfizer or Moderna series or 2 months after their initial J&J vaccine.

When we get vaccinations and boosters, we continue to protect ourselves and our loved ones. Vaccines are critical to enjoying a safe and healthy holiday season with family and friends, and New Yorkers are strongly encouraged to get vaccinated to help prevent the spread of the deadly COVID-19 virus.

After the New Year, the College will launch a separate portal to begin to collect booster shot records.

Best,

Amy M DeKay, MS
