School of Adult and Graduate Education
Academic Catalog 2006-2007

Medaille College is an affirmative action/equal opportunity employer. Further, it admits students of any race, color, national and ethnic origin, and age to all rights, privileges, programs, and activities generally accorded its students. In conformance with Title IX, 1972 Education Amendments, it does not discriminate on the basis of sex, race, color, handicap, national and ethnic origin or age in the administration of its educational policies, admissions policies, scholarship and local programs, and athletic and other institutionally administered programs.

This catalog is for informational purposes only and is subject to change without notice. The provisions of this catalog do not constitute a contract, express or implied, between any applicant, student or faculty member and Medaille College. The College reserves the right to withdraw courses or programs at any time, to change fees or tuition, calendar, curriculum, faculty assignments, degree requirements, graduation procedures, and any other requirements affecting students. Changes will become effective whenever determined by the College and will apply to both prospective students and those already enrolled. Courses are not necessarily offered each semester or each year. Students should always consult with their college advisors to confirm all information. The College retains the exclusive right to judge academic proficiency and may decline to award any degree, certificate, or other evidence of successful completion of a program, curriculum, or course of instruction based thereupon. While some academic programs described in this catalog are designed for the purposes of qualifying students for registration, certification, or licensure in a profession, successful completion of any such program in no way assures registration, certification, or licensure by an agency other than Medaille College.

Evening Classes

FALL 2006 Session I (August 26-December 16)
The first of two (2) sessions in a semester. Regular classes will be held on a Tuesday or a Thursday. However, they will begin with a Saturday 4 hour and 45 minute class, and end with an Assessment Competency in a 4 hour and 45 minute session on a Saturday.

08/26/06 — First Saturday Class for Session I:

- Tuesday Classes to report from 8:00 am—12:45 pm
- Thursday Classes to report from 1:00 pm—5:45pm

08/28/06 — Drop/Add Deadline for Session I
09/19/06 — Pass/Fail Deadline for Session I Tuesday Classes
09/19/06 — Withdraw Deadline for Session I Tuesday Classes
09/21/06 — Pass/Fail Deadline for Session I Thursday Classes
09/21/06 — Withdraw Deadline for Session I Thursday Classes
10/14/06 — Assessment/Competency Saturday Class for Session I:

- Tuesday Classes to report from 8:00 am—12:45 pm
- Thursday Classes to report from 1:00 pm—5:45pm

10/18/06 — Session I Grades due on Banner

**FALL 2006** Session II

The second of two (2) sessions in a semester. Regular classes will be held on a Tuesday or a Thursday. However, they will begin with a Saturday 4 hour and 45 minute class, and end with an Assessment /Competency in a 4 hour and 45 minute session on a Saturday.

10/21/06 — First Saturday Class for Session II:

- Tuesday Classes to report from 8:00 am—12:45 pm
- Thursday Classes to report from 1:00 pm—5:45pm

10/23/06 — Drop/Add Deadline for Session II
11/14/06 — Pass/Fail Deadline for Session II Tuesday Classes
11/14/06 — Withdraw Deadline for Session II Tuesday Classes
11/16/06 — Pass/Fail Deadline for Session II Thursday Classes
11/16/06 — Withdraw Deadline for Session II Thursday Classes
12/16/06 — Assessment/Competency Saturday Class for Session II:

- Tuesday Classes to report from 8:00 am—12:45 pm
- Thursday Classes to report from 1:00 pm—5:45pm

12/20/06 — Session II Grades due on Banner

**FALL 2006** Full Semester
Full semester evening classes will be held on a Monday or a Wednesday for the entire semester.

09/06/06 — Wednesday Evening Classes Begin
09/11/06 — Monday Evening Classes Begin
09/12/06 — Drop/Add Deadline for both Monday and Wednesday Classes
10/09/06 — Columbus Day Observed (Holiday)
11/03/06 — Pass/Fail Deadline for both Monday and Wednesday Classes
11/03/06 — Withdraw Deadline for both Monday and Wednesday Classes
11/22/06 thru 11/26/06 — Thanksgiving Holiday
11/27/06 — Classes resume
12/11/06 — Last Day of Evening Classes
12/15/06 — Grades Due for Full Semester Evening Classes

**SPRING 2007 Session I**

The first of two (2) sessions in a semester. Regular classes will be held on a Tuesday or a Thursday. However, they will begin with a Saturday 4 hour and 45 minute class, and end with an Assessment Competency in a 4 hour and 45 minute session on a Saturday.

01/13/07 — First Saturday Class for Session I:

- Tuesday Classes to report from 8:00 am— 12:45 pm
- Thursday Classes to report from 1:00 pm— 5:45pm

01/16/07 — Drop/Add Deadline for Session I

Canadian Teacher Education Program Fall Semester Schedule 2006

August Mini Sessions

Monday August 21 – Friday August 25 [MTWRF 8:30 am – 4:30pm]

Monday August 28 – Friday September 1 [MTWRF 8:30 am – 4:30pm]

Monday/Tuesday cohorts only

Start/End dates Tuesday, September 5 – Tuesday, December 12, 2006

No classes on: Monday, October 9, 2006

Wednesday/Thursday cohorts only

Start/End dates Wednesday, September 6 – Thursday, December 7, 2006

No Classes on: Wednesday, November 22, 2006 & Thursday, November 23, 2006

Weekend Program only

Start/End dates Friday/Saturday Classes: Friday September 8 – Saturday, December 9, 2006

Start/End dates Saturday/Sunday Classes: Saturday, September 9 – Sunday December 17.
Classes will be held on:

- September 9-10
- September 23-24
- October 14-15
- October 28-29
• November 11-12
• December 2-3
• December 16-17

There are no classes for any weekend students on:

• Friday, October 6, 2006
• Saturday, October 7, 2006
• Friday, November 24, 2006
• Saturday, November 25, 2006

**Student teaching field experience dates**

Student teaching begins Monday, September 5, 2006 and ends on Friday, December 8, 2006.

**History**

Medaille College is a private, coeducational institution committed to serving the educational needs of the region’s diverse population. Medaille offers associate, bachelor's and master's degree programs through day, evening and weekend studies.

The College traces its roots back to 1875 when the Sisters of St. Joseph founded an Institute for the preparation of teachers. The Institute became Mt. St. Joseph Teachers College in 1937, and was authorized to grant baccalaureate degrees in Education to women in religious orders. In 1967 the name of the institution was changed to Medaille College, and its charter was amended to allow it to admit both men and women. In 1968 an absolute charter was granted by the Board of Regents, establishing Medaille College as a totally independent institution governed by a self-perpetuating Board of Trustees.

The College’s Institutional mission is to offer a range of quality college degree programs that are career-oriented, yet carry a strong emphasis on the critical thinking and communication skills formed through a liberal arts foundation. Medaille grants graduate degrees in business and education, as well as undergraduate degrees in the liberal arts and a variety of career-related programs.

**Unique Strengths**

*Dedicated Faculty* - Faculty bring a commitment to learning and teaching that is student-centered and firmly based on scholarship. First and foremost, the faculty consists of professionals who bring to the classroom the benefits of a widely diverse experience.

*Convenient class times* - Medaille is a pioneer in providing convenient and quality degree programs available during the day, evening and weekends.
Personal Atmosphere - Everybody knows your name at Medaille. A student is treated as a respected individual. Each student's individual qualities are discovered through working with faculty, staff, and fellow classmates.

Average Class Size - while class size varies by program, students can expect to experience a personal atmosphere.  
*Total full-time graduate enrollment (2006): 1,166*  
*Total part-time graduate enrollment (2006): 96*

Tuition - Medaille continues to offer one of the most affordable educations of any private college in the area. Call Admissions for details at (716) 880-2200 or (800) 292-1582.

## Mission of Graduate Study

The Mission of the School of Adult and Graduate Education at Medaille College is to facilitate the exchange of ideas and the creation of knowledge while fostering academic excellence. The School of Adult and Graduate Education promotes a high quality-learning environment that embraces diversity. This commitment is evident across the curricula of each of the division’s programs, which, at their core, seek to foster the development of transformative intellectuals and agents for positive change for our community. The faculty members of the School of Adult and Graduate Education are active teachers and scholars dedicated to excellence in teaching and the development of new knowledge. The curriculum in each program is designed to develop the highest degrees of competence, professionalism, and leadership qualities in the student.

Graduate study requires high academic achievement, and it will extend your experience and capabilities within the advanced, specialized areas of your chosen field. While the emphasis of all master's programs within the Medaille Graduate Division is on preparing you for professional practice, you will develop a thorough understanding of research and research methodology. A common objective of all Medaille Graduate Programs is to develop the capacities you will need for independent study and research, so that critical inquiry is made a viable mode for improving your practice throughout your career.

Students pursuing graduate studies are admitted and enrolled in the School of Adult and Graduate Education and are subject to the policies of the college's Graduate Handbook as well as the regulations of their specific programs.

## Graduate Coursework Defined

**Graduate coursework is more rigorous.** More is expected of the graduate student than of the certificate or undergraduate student, especially in regard to reading and writing.

**Graduate coursework is more self-directed.** Students’ choose, under the guidance of faculty, an area that they feel they need to know more about…and they study that area.
Graduate coursework is more attentive to research. Students look into, conducting, as well as reading original research.

Graduate coursework is a community of learners, rather than only a teacher-student relationship. Graduate students are assumed to have reached an intellectual maturity that puts them at a place where the role of the instructor is different. Instructors need to guide and mentor the mature student in the direction that the student has identified.

Graduate coursework encourages students to be involved in local, state, and national leadership issues. Graduate study emphasizes effective, positive change so that students will be leaders of their communities on a local, state, and national level.

Graduate study is not just remembering information; it is also constructing knowledge. The community of learners encourages new insights and creates new knowledge in the field.

Location

Medaille College's main campus is located in Buffalo, New York, on an attractive urban campus at the intersection of Route 198 (Scajaquada Expressway) and Parkside Avenue. Adjacent to Delaware Park and the Buffalo Zoological Gardens, the campus is easily accessible by car, bus, or Metro Rail. The Humboldt-Hospital rapid transit station is within walking distance of the campus. In addition, Medaille is in close proximity to the Albright-Knox Art Gallery, the Buffalo and Erie County Historical Building, the Buffalo Museum of Science, and the Buffalo and Erie County Public Libraries.

The Amherst campus is located in the Centerpointe Corporate Park at 400 Essjay Road. Situated on Essjay, which runs between Sheridan Drive and Evans Street, the campus is easily accessible by Main Street (Route 5) or Sheridan Drive (Route 324).

The Rochester campus is located in the Corporate Woods Office Park at 100 Corporate Woods, Suite 200. Corporate Woods can be entered off of Crittenden Road, which is accessible from the E. Henrietta exit (Exit 16) of the 390 Expressway.

Admission to the School of Adult and Graduate Education

Correspondence regarding admission to the School of Adult and Graduate Education should be addressed to the School of Adult and Graduate Education (SAGE) Office of Admissions which will supply application forms and supplementary information.

Admission to graduate study is granted by the Admissions Committee upon the recommendation of the Program Directors in a graduate program. Applicants should see that each undergraduate or graduate institution previously attended sends official transcripts. The transcripts should be
Entrance Requirements

Admission with full standing:
An application for admission to the School of Adult and Graduate Education ordinarily implies the student's intention to work toward an advanced degree. To be considered for admission with full standing the applicant must have:

- A bachelor's degree from an institution accredited by one of the regional accrediting associations.
- Adequate undergraduate preparation in the proposed major field or equivalent evidence of an appropriate background for undertaking an advanced degree, as deemed by the individual program.
- An undergraduate average of approximately 3.0 on a 4 point scale or better in your major area of study. Students who do not have a 3.0 may need to submit sufficient evidence in the form of personal statement or recommendation that they are capable of performing graduate level work or be offered probationary admission (see Probationary Admission)
- Submitted a 2-3 page writing sample inclusive of a statement of intent and summary of long-term career goals.

Individual graduate programs may have additional admission requirements. Prospective applicants should consult the appropriate program entry in this Catalog or contact the SAGE Office of Admissions directly.

Applicants to the School of Adult and Graduate Education at Medaille College must have a bachelor's degree that contains a broad range of courses representing the basic academic disciplines. In addition, a major portion of the courses included should be graded by a multilevel system, usually A, B, C, D and F.

Applicants holding degrees not meeting these standards may be denied admission to graduate degree programs at Medaille. Admission will be denied to applicants possessing bachelor's degrees with a significant amount of credit awarded for work experience that was not supervised by a faculty member of an accredited university nor evaluated in units that identify the academic content. However, a limited amount of credit for experience, when awarded as an acceptable part of a bachelor's degree for internships, field experience, or the like, will not be cause for denial of admission, but it must be clearly delineated as graded work.

All applicants should keep in mind that the Admissions Committee bases each admission decision on the merit of each individual applicant. The Admissions Committee in each graduate program considers very seriously each applicant's motivation, maturity, and ability as well as the student's academic record. Consideration is given to academic background, life experience, and standardized test scores. In conformance with Title IX, 1972 Education Amendments, the College does not discriminate on the basis of sex, race, color, handicap, national and ethnic
origin or age in the administration of its educational policies, admissions policies, scholarship and local programs, and athletic and other institutionally administered programs.

_Probationary admission:_
For those whose grades do not meet the above standards, probationary admission may be granted, provided there is other evidence that the applicant has the ability to do satisfactory graduate work. Such evidence might include an excellent record of postgraduate work at another institution, three letters of recommendation from those in position to evaluate the student’s abilities for graduate study, or high scores on the Graduate Record Examination or the Miller Analogies Test. Those who wish to take the Graduate Record Examination should obtain _The GRE Information and Registration Bulletin_, available at most university and college testing offices. The applicant must pay the fee for either test. Students have one semester to provide the College with evidence supporting their application.

_Provisional admission:_
Students may be admitted provisionally if there is uncertainty in evaluating transcripts, or if there are undergraduate deficiencies that must be removed. Students admitted on probation or provisionally will be advised of other conditions to be met to attain full standing. Full standing is attained automatically upon completion of at least 9 hours of course work for graduate credit with a grade of B or better, and upon the removal of any deficiency which was specified at the time of the admission. Students admitted on probation might be denied continued enrollment if they do not achieve full standing within the specified time period.

_Non-matriculate students:_
Non-matriculate students wishing to take one class in one of the graduate degree programs must complete the following:

- An application for non-matriculating students in the SAGE Admissions Office, 300 Essjay Road, Williamsville NY – ph. 716-635-5033 x1.
- Be currently enrolled in a like program at another college or university or meet the current minimum admission requirements for the program (student may be asked to prove transcripts to verify GPA)
- Receive approval from Program Director prior to registering for class.

_Non-degree graduate students:_
Students who do not plan to work for an advanced degree may be admitted to the School of Adult and Graduate Education. Applications from such students should be sent to the program in which they plan to take courses, together with a copy of the official transcript from the institution that granted the undergraduate degree. Students should schedule an appointment with the appropriate Program Director to discuss their application. A non-degree seeking student who later wishes to enter a degree program must undergo the full application and admission review process. No more than 12 semester hours earned as a non-degree student may be transferred into a regular degree program. In all cases, applications are initially reviewed by the Graduate Program Council, which forwards to the School of Adult and Graduate Education those recommended for admission. Only the Graduate Program Council’s Academic Standards Committee admits students officially.
When to Apply

Medaille College has a rolling admissions policy and students may be admitted for the fall, spring, or, for some programs, summer semester. However, to ensure adequate time to apply for Financial Aid and to secure space within their program of study, students are encouraged to apply at least 4-weeks prior to the start of a semester. See the College's Academic Calendar in this catalog to find out when each semester and module begins. Contact the SAGE Office of Admissions to find out the application deadline for each semester and module.

How to Apply to Medaille

Here are the steps to follow in applying for admission:
1. Obtain an application.
   You may request an application by telephoning the Graduate Admissions Office at (716) 635-5033 or toll-free 1-800-957-5033, by e-mailing gradadmissions@medaille.edu or apply online at http://mcforms.medaille.edu.
2. Submit the application and fee.
   Complete the application and send it, along with two letters of recommendation, a current resume, and statement of intent letter, to the Graduate Office of Admissions along with a $35 non-refundable processing fee (on-line applicants do not need to pay the $35 processing fee). To learn more about Medaille, you may contact the Graduate Admissions Office to arrange for an interview at (716) 635-5033 or toll-free 1-800-957-5033, by e-mailing gradadmissions@medaille.edu.
3. Submit transcripts.
   If you are applying either as a student with graduate credit or as a first-time graduate student, submit official transcripts from all colleges you have previously attended. Students in the Master of Arts in Psychology should submit test score results from the GRE.
4. Review by the Admissions Committee.
   Your application will be reviewed and evaluated by the Admissions Committee once you have completed steps 1 through 3. Applications and all supportive credentials become the property of Medaille College and will not be returned to the applicant.
5. Notification/acceptance.
   Medaille College follows a policy of rolling admissions. You will be notified of your admissions decision within two weeks of having completed the application process. If accepted, you will receive information about orientation, immunization forms and registering for your courses at that time.
6. The tuition deposit.
   To reserve a position in your program of study at Medaille, you will be required to pay a $100 tuition deposit. You should submit your deposit within one month of your acceptance. The deposit is non-refundable and will be credited to your first semester's tuition.
7. Proof of immunization.
   New York State law requires that any college student born after January 1957 must provide medical proof of immunization for measles, mumps, and rubella prior to enrollment. Contact the Health Center for further information. Additionally, all students, regardless of birth date, are required to receive information about the
risk of meningococcal disease and the benefit of vaccination. Students are required to read the information and either obtain the meningitis vaccine or sign a waiver refusing the vaccine. Students must submit either proof of vaccination or a signed waiver to the Student Health Center prior to enrollment.

Transfer Credits

Medaille's transfer policy permits acceptance of graduate credit earned at other regionally accredited colleges and institutions of higher learning. Students who wish to have credits earned at other institutions applied toward fulfillment of their course of study at Medaille should check with the appropriate Program Director for an evaluation of these credentials. Only credit is transferable; grades, quality points, and cumulative averages do not transfer.

International Students

International students must meet the admission criteria of the appropriate graduate program. In addition, they must present evidence that they have command of the English language. A minimum score of 550 (paper-based exam) or 213 (computer-based exam) is required on the Test of English as a Foreign Language (TOEFL). Students that have received a bachelors degree in a regionally accredited US educational institution do not need to submit a TOEFL score. Certified transcripts of college work must be submitted. When not in English, the transcript should include certified translations. Since federal and/or state financial aid is not available to international students, they are required to present certified evidence of sufficient funding to cover their educational expenses.

Because of the time needed for both the college and the Department of Homeland Security to process international students for their student Visa, students should apply early for their expected start term to ensure timely completion of all requirements.

Students with Disabilities

In compliance with Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990, Medaille College does not discriminate on the basis of disability. Medaille College endeavors to assist students on an individual basis with any expressed concerns. The Office of Disability Services was created to assist students with disabilities in all aspects of college life. Based on the submission of appropriate documentation, College personnel do as much as is reasonable to ensure that individuals with disabilities achieve independence and fully participate in the educational process in a comprehensively accessible environment. Students requesting services and/or accommodations must contact the Office of Disability Services directly.

Academic Advising
Each graduate student at Medaille is assigned an academic advisor who will assist the student in developing realistic educational, career, and life goals. Working together, the student and advisor will evaluate and modify these goals as needed throughout the student's course of study. Graduate program advisors are available during registration periods and throughout the academic year for consultation.

**Advisor Roles and Responsibilities**

- To assist students in developing an academic plan that satisfies graduation requirements.
- To monitor student progress and help students make appropriate program adaptations.
- To discuss academic, career, and life goals with advisees.
- To become professionally acquainted with advisees.
- To refer advisees, when necessary, to proper services.
- To have access to information related to College programs, policies, and services.
- To inform advisees of changes in their course of study.
- To maintain regular and adequate office hours and keep appointments with advisees.
- To collect and maintain student data as needed.

**Advisee Roles and Responsibilities**

- To meet with advisor during the academic year to work through academic, career, and life goals.
- To make use of appropriate campus and community services to meet goals.
- To read the College Catalog and Master Schedule in order to select courses.
- To make and keep appointments with advisor concerning educational needs and goals and course selection.
- To know the requirements for the chosen program of study.
- To make certain that requirements are met for that program.
- To become an active participant in the advisor/advisee relationship and to become increasingly self-directing.
- To maintain personal records of academic progress.

**Academic Information**

Medaille offers unique programs and services to accommodate the special needs of students with diverse educational backgrounds and rich life and career experiences.

**Class Times**

Times for class meetings, day evening and weekend, are varied and scheduled to meet the needs of individual programs and their students. The number of class meetings varies according to the length of the course and credits earned. Refer to the Master Schedule for specific class times and meeting locations. All programs provide eligibility for financial aid benefits. Students who need
additional information or who need specific questions answered should contact the Financial Aid Office.

**Unit of Academic Credit**

Generally, one credit represents the equivalent of one hour of lecture or recitation or at least two hours of laboratory work each week and at least 30 hours of supplementary assignments for one semester term or its equivalent. A full-time graduate student is one who carries a minimum of 18 credit hours per academic year.

**Class Load**

Students must have a GPA of 3.5 or higher in order to carry more than 9 hours during one semester or more than six hours during one module. For most programs, a student is not allowed to carry more than 15 credits in any one semester.

**Pre-Graduation Review**

A pre-graduation review listing outstanding requirements will be completed by the Registrar’s Office once the student has applied for graduation. Students should apply for graduation the semester prior to the completion of their program.

**General Requirements for College Degrees**

Graduation from the College with the award of the appropriate degree will be granted upon fulfillment of the following general requirements:

1. The student must complete all prescribed courses in a specific program and sufficient elective credits to make up the minimum total required credit hours with a cumulative grade point average of at least 3.0.
2. The student must earn his/her final 15 credits at Medaille if enrolled in the master's degree program.
3. All College property on loan to the student must be returned in satisfactory condition to the College and all financial obligations to the College must be met prior to degree conferral and transcript release.

Note: Each graduate program may have specific requirements; therefore, check the individual program in this catalog.

Any person who wishes to participate in the annual commencement, held during the month of May each year, must complete all academic requirements for graduation in order to participate, except for (1) those students in the process of completing requirements in the semester during which commencement takes place and (2) those students lacking one to six credit hours who, prior to the ceremony, register to take those outstanding credits during their next term of study.
Course Substitution

Deviation from a prescribed curriculum will be permitted only under extraordinary circumstances. A course substitution must be approved by the student's Program Director, department chairperson, the Registrar, and Dean of the School of Adult and Graduate Education. No student should begin attendance in a requested substitution unless a copy of the approved Course Substitution Form has been received by the student. No course substitution will be granted retroactively. Students graduating in May must have course substitutions approved by December 1 of the preceding year.

Policy Waiver

Deviation from a prescribed policy will be permitted only under extraordinary circumstances. An academic policy waiver must be approved by the student's Program Director, department chairperson, the Registrar, and the Dean of the School of Adult and Graduate Education. If the waiver is approved, the student will receive a copy of the completed Policy Waiver Form. No policy waiver will be granted retroactively.

Directed Study

Directed Study is individualized instruction identical in regard to the title, course objectives, course content, and evaluative criteria of the course.

Directed study is made available only under the most extraordinary circumstances and is implemented to fulfill a graduation requirement that is not otherwise available to the student. GPAs of 3.0 are required of students who wish to undertake Directed Study. The faculty and College do not guarantee that this is available during any particular semester.

Students may not take a Directed Study to replace a course in which a failing grade was earned.

Before completing an application, a student should discuss the matter with the Program Director and the appropriate instructor. The instructor should be aware of what the student intends to accomplish and be willing to direct the study. The student and the instructor must agree on the time that will be devoted to supervision and the manner in which the instructor will evaluate the study.

Servicemember's Opportunity College

Medaille College has been identified as a Servicemember's Opportunity College (SOC) providing educational assistance to active duty servicemembers. An SOC institution offers the following benefits for servicemembers:

1. Use of admissions procedures which ensure access to higher education for academically qualified military personnel;
2. Evaluation of learning gained through military experiences and academic credit awarded where applicable to the servicemember's program of study;
3. Evaluation of non-traditional learning and awarding of academic credit for such learning where applicable to the servicemember's program of study;
4. Evaluation of request for inter-institutional transfer of credits and acceptance of such credits whenever they are appropriate to the servicemember's program and are consistent with the College's curriculum;
5. Flexibility to servicemembers in satisfying residence requirements by making adjustments for military students who transfer when there are other assurances of program balance;
6. Designation of personnel with appropriate academic qualifications and experience to administer and supervise SOC-related activities and to develop policies and procedures appropriate to the scope of their voluntary education programs;
7. Educational services for veterans.

The Grading System and What It Means

Graduate programs require that students maintain at least a B (3.0) average for all courses taken in fulfillment of degree requirements at Medaille. The following system of grading has been adopted by the College:

Quality Grades Points

<table>
<thead>
<tr>
<th>Grades</th>
<th>Quality Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>High distinction, an exceptionally high achievement</td>
<td>A  4.0</td>
</tr>
<tr>
<td></td>
<td>A- 3.7</td>
</tr>
<tr>
<td>High achievement</td>
<td>B+ 3.3</td>
</tr>
<tr>
<td>Average, average achievement</td>
<td>B  3.0</td>
</tr>
<tr>
<td>Pass, below average achievement</td>
<td>B- 2.7</td>
</tr>
<tr>
<td></td>
<td>C+ 2.3</td>
</tr>
<tr>
<td></td>
<td>C  2.0</td>
</tr>
<tr>
<td>Failure, unsatisfactory grade</td>
<td>F  0.0</td>
</tr>
<tr>
<td>Official withdrawal</td>
<td>W</td>
</tr>
<tr>
<td>Incomplete</td>
<td>I</td>
</tr>
<tr>
<td>Audit</td>
<td>AU</td>
</tr>
</tbody>
</table>

(GPA) Grade Point Average

Grades received earn quality points as indicated on the preceding table. A grade point average is computed by dividing the number of quality points earned by the total number of credit hours for which you were registered. Grade point averages may be computed for one semester's courses or on a cumulative basis. To compute a semester grade point average, multiply the number of quality points earned for the grade (see preceding table) by the number of credits awarded for the course; add the quality points and divide by the number of quality credits for the semester.
Cumulative Average

The cumulative average is computed for all of the courses you have taken at Medaille. It changes whenever a new semester's grades are calculated and is a reflection of how a student is doing in all of his/her work. In cases of repeated courses, only the last grade earned is utilized in the cumulative GPA calculations.

(W) Course Withdrawal

In order to withdraw from a course after the drop/add period, a student must obtain a Course Withdrawal Form from the Office of the Registrar. The signature of the advisor should be obtained. If the student's advisor is not available, however, the student must write on the Withdrawal Form that he/she takes full responsibility for withdrawing from the course, sign and date it. The completed form is returned to the Registrar's Office.

A student may withdraw from a course during the first two-thirds of a semester or module. See the Academic Calendar for specific dates. A grade of "W" appears on the transcript for an official withdrawal. No withdrawal is permitted after the deadline. Depending upon the withdrawal date and the number of credits a student is carrying during a particular semester, course withdrawal may affect tuition. (see Tuition Liability policy). There is the possibility of reduced financial aid if withdrawing from a course means the student would carry fewer than 12 credits.

Please note: Discontinuance of attendance in one or all classes does not constitute an official withdrawal. A student who does not follow the proper procedure and/or stops attending class (an unofficial withdrawal) will receive from the instructor the grade earned according to the student's performance.

(I) Incomplete

Incompletes may be assigned if a student is unable (for valid reasons) to complete the course work, has a passing grade average and a well-defined plan to complete the remaining course work. Requests for an Incomplete must be made in writing to the course instructor no later than two weeks prior to the ending date of the course and, if granted, the Incomplete must be made up by the end of the following academic term. If the course work is not completed by the end of the following term, the grade becomes the designated alternate grade assigned by the course instructor or an "F".

Students are allowed to request a total of two (2) Incompletes during the course of their graduate study at Medaille College.

(AU) Audit
A student desiring to audit a course must receive the approval of the appropriate instructor and complete the normal registration process. Only officially audited classes will appear on the transcript. Students who audit are expected to attend classes but their work is not subject to review by the instructor and they will receive no grade at the completion of the class.

**Repeating a Course**

In cases of repeated courses only the last grade earned, whether higher or lower, is used in calculating the grade point average. All grades earned for courses taken at Medaille, however, remain a part of the student's permanent record.

Students must complete and submit the appropriate form at the time of registration. Students should take note that if the repetition is not required by the College, New York State will not allow the credit hours for the course to be counted in determining the minimum course load required for financial aid purposes.

Students may not take a Directed Study or have a course transferred from another college to replace a course in which a failing grade was earned.

**Academic Warnings**

Students who are in danger of failing to show good progress in a course or in their program of study receive an academic warning from their Instructor. Students who receive a warning should immediately contact the Program Director to find out how the grade can be improved.

**Academic Standards: Probation, Suspension, Dismissal**

Continuation in graduate studies requires satisfactory progress toward a graduate degree. Evidence of such progress includes maintenance of a minimum 3.0 cumulative grade point average each term. The progress of each student is reviewed each term by the Graduate Academic Standards Committee. Failure to maintain the minimum 3.0 cumulative grade point average will result in placement on probation. Any student on probation must not only achieve a 3.0 cumulative average within two successive terms following the term in which the deficiency occurred, but must also maintain at least a 3.0 term average in any term in which he or she is on probation. Failure to meet either of these requirements will result in dismissal from graduate studies at Medaille.

Graduate students must have a minimum 3.0 cumulative grade point average in order to graduate. The computation of academic standing is based on hours earned each term.

Students placed on academic suspension may, upon signing a Probationary Contract with the Program Director, continue studies after the lapse of one regular (fall, spring) semester; those who have been dismissed may apply for readmission after the lapse of two regular semesters. Such students who then again are placed on probation must earn removal by the end of one semester or be subject to suspension or dismissal.
If a student wishes to appeal an academic standards decision, he/she may do so by appeal through the Academic Affairs Office. The initial appeal must be in writing within 14 calendar days of notification or by the end of the first week of the next semester (whichever comes first) and state, in specific terms, the student's case for appeal.

**Attendance**

Regular attendance is expected at all classes and academic activities related to a course (for example, field work) unless otherwise specified. Medaille College subscribes to the "Guidelines on Students and Religious Observance" adopted by the Commission on Independent Colleges and Universities. Absence does not excuse a student from course work and responsibility. Excessive absence is detrimental and it may affect a student’s grade and certain types of financial aid. Discontinuance of attendance does not constitute an official withdrawal.

**Course Syllabi Policy**

At the beginning of every course, the instructor distributes a written course syllabus to all students taking the course. The course syllabus describes the objectives and content for the course and the method by which students' work will be evaluated for grades. Students’ should keep all of your course syllabi so that you may refer to them throughout the semester.

**The Evaluation of Students' Work**

An evaluation system is required for each course. Examinations, papers and projects ordinarily part of the evaluation system, but alternative methods of overall evaluation may be employed. At the first class period of the semester or module, the instructor will inform students through the course disclosure of the type of evaluation system that will be used for that course throughout the semester.

**Academic Decorum**

Medaille College does not tolerate sexual or racial harassment of students or employees by College faculty, staff, or students. Students are legally protected from such activity by both state and federal legislation and are asked to report any occurrence to the Academic Affairs Office without fear of recrimination.

The College does not tolerate immature or abusive behavior in the classroom setting. Students are expected to follow the Instructor’s expectation of appropriate classroom behavior. Failure to do so may result in expulsion from the course.

Upon receipt of a written complaint about a student from the instructor, the Dean of the School of the Adult and Graduate Education may immediately remove the student from the class. The Dean will review the situation and evidence and render a final decision within 30 days.
Academic Dishonesty

Medaille College expects students to fulfill academic assignments independently and honestly. Any cheating, plagiarism or other forms of academic dishonesty at Medaille College will be penalized, with sanctions ranging from an “F” on a specific assignment to expulsion from the College.

1. Cheating refers to the use of unauthorized assistance on academic assignments. Unauthorized aid may include, but is not limited to, the use of printed material, equipment, personal notes or other people. Students should assume that assistance should not be used unless it has been expressly permitted. It is the students’ responsibility to know the limits of assistance, if any, permitted on any assignment.

2. The faculty of Medaille College abide by the definitions of plagiarism offered by James D. Lester in *Writing Research Papers*, 4th ed., pages 95-96 (Glenview, Illinois: Scott, Foresman and Company). The following is reprinted with permission of Scott, Foresman and Company:

   “Fundamentally, plagiarism is the offering of words or ideas of another person as one’s own. While the most blatant violation is the use of other students’ work, the most common is the unintentional misuse of your reference sources. An obvious form of plagiarism is copying direct quotations from your source material without crediting the source. A more subtle form, but equally improper, is the paraphrasing of material or use of an original idea that is not properly introduced and documented. Your use of source materials requires you to conform to a few rules of conduct:

   - Acknowledge borrowed materials within your text by introducing the quotation or paraphrase with the name of the authority from whom it was taken. This practice serves to indicate where the borrowed materials began.
   - Enclose within quotation marks all quoted materials.
   - Make certain that paraphrased material is rewritten in your own style and language. The simple rearrangement of sentence patterns is unacceptable.
   - Provide specific documentation for each borrowed item.
   - Provide an entry in [bibliography] for every book or journal [or internet site] that is referred to in your paper.” *

3. Other possible examples of academic dishonesty include:

   - falsely claiming to have done work or obtained data;
   - misrepresenting reasons for not completing assignments or taking examinations as scheduled;
   - submitting the same work in different courses without the prior approval of the instructor;
   - forging a signature on any college document;
   - damaging or stealing college documents and/or equipment from the library, computer center, classrooms, or other academic resources areas; and
   - cheating on a test or other in class assignments.
Student Charged with Academic Dishonesty—First Offense

1. An instructor who discovers evidence of cheating, plagiarism, or other forms of academic dishonesty will meet with the student and orally inform the student of the suspected violation and evidence upon which it is based as soon as possible after the offense is discovered.

This meeting affords the student an opportunity to present an explanation or defense and possibly resolve to the instructor’s satisfaction what may be a simple misunderstanding. After talking with the student, the instructor may choose not to pursue the matter or invoke any penalty. No formal charge may be filed against the student or a penalty imposed until the faculty member has met with the student (or made a reasonable effort to do so).

In situations where the suspected transgression is not discovered until after the close of a semester, the instructor should submit a grade of “Incomplete” and make a reasonable effort to contact the student as soon as possible either by phone or letter to discuss his/her suspicion of academic dishonesty. If for some reason the student cannot be reached, or fails to respond within two weeks, an instructor may proceed to levy formal charges and impose course-related sanctions without having met with the student.

2. If still convinced that a violation of academic honesty has occurred, the faculty member will charge the student with academic dishonesty in a written statement that (a) details the specifics of the violation and (b) clearly states the course penalty (ies) to be imposed. The penalty may include an “F” for the specific assignment in question, an “F” for the entire course, or other course-related sanction deemed appropriate by the instructor. The instructor must report the action in writing to the appropriate department chair and the appropriate Dean.

The appropriate Dean will function as the college’s records manager for cases of acknowledged and/or proven academic dishonesty. Each case of alleged academic dishonesty will be handled confidentially, with information shared on a limited, need-to-know basis. All records will be placed in the student’s permanent official records file in the Registrar’s Office.

Student Appeal Process

1. A student may accept an instructor’s charge of academic dishonesty and the imposed course penalty (ies) or appeal the decision. In sequence, appeals may be made to the faculty member’s department chair, the Graduate Academic Standards Committee and, finally, to the Dean of the School of Adult and Graduate Education. In cases where a department chairperson is the faculty member levying the charge of academic dishonesty, a student should appeal directly to the Graduate Academic Standards Committee through the Dean (as described below). At any stage of the appeal, the department chair, the Graduate Academic Standards Committee or the Dean may dismiss or reaffirm the charge based on interviews with all relevant parties and a thorough review of the evidence.
If the charges against the student are dismissed at any stage of the process, all the parties involved in the decision will be informed in writing. All parties have the right to appeal any decision except for the Dean, which is final.

2. To appeal an instructor’s decision, the student must send a letter of appeal to the faculty member’s department chairperson within five working days of receiving the instructor’s written charge of academic dishonesty. After interviewing the student and instructor (and other relevant persons as needed) and reviewing the evidence, the chairperson will render a decision in writing within five working days of receiving the student’s appeal letter. A copy of this letter will also be placed in the student’s permanent, official file in the Registrar’s Office.

The student’s letter of appeal should contain:

- the course name, number, and section;
- the instructor’s name;
- the nature of the violation;
- reasons why the student believes academic dishonesty did not occur or a rationale explaining why the penalty imposed is too severe; and
- supporting documentation.

A student intending to file an appeal is advised to consult with a faculty or staff member for assistance in composing an appeal letter.

3. To appeal a chairperson’s decision, the student should notify the appropriate Dean of his/her intent to appeal in writing within five working days of receiving the department chair’s written decision. The Dean will review the case evidence, meet with the student and decide whether or not to convene the Graduate Academic Standards Committee.

If the Dean determines the student has presented an insufficient basis for further appeal, he/she will notify the student in writing of his/her decision to uphold the charge of academic dishonesty within five working days of meeting with the student. The faculty member levying the original charge and the department chairperson involved will receive copies of the Dean’s letter. A copy of this letter will also be placed in the student’s permanent, official record file in the Registrar’s office.

With cases determined to warrant further consideration, the Dean will convene the Graduate Academic Standards Committee within ten working days after receiving the student’s appeal. After conducting a thorough hearing and review of the evidence (not to exceed two weeks time), the Graduate Academic Standards Committee will render its decision in writing and communicate it to the Dean who will inform the student in writing of the Committee’s decision within five working days after its receipt, with copies sent to the appropriate faculty member, department chairperson and the Registrar’s Office.

At a Graduate Academic Standards Committee hearing on academic dishonesty, the student may be accompanied by anyone serving in an advisory capacity, and has the right to call witnesses. However, during the hearing, no party may be represented by legal counsel.
**Documentation in Student Records**

1. A final, official letter documenting a violation of the College’s academic honesty policy will be placed in the student’s confidential file in the Registrar’s office in all instances of proven and/or acknowledged academic misconduct.

2. If a student is exonerated of a charge of academic dishonesty, the incident will not be documented as part of his/her permanent academic record, and all communication pertaining to the case will be destroyed.

**Note on Sanctions**

An individual instructor’s sanctions for a specific case of academic dishonesty are limited to course-related penalties; however if a student’s violation is determined to be extremely serious, an instructor may request that the appropriate Dean’s Office review the case and send it to the Graduate Academic Standards Committee for recommendations on further sanctions, including expulsion from the College.

**Repeat Offenses**

As described in detail below, the process for handling cases of alleged academic dishonesty involving previous offenders omits the involvement of department chairperson, although they will be informed of the matter. All alleged repeat offenses and student appeals, if any, go directly to the Graduate Academic Standards Committee for a full hearing.

1. When the Dean, as the institution’s records manager for cases of academic misconduct, becomes aware of a second (or more) reported charge of alleged academic dishonesty, he/she will immediately contact both the student charged and the faculty member bringing the charge and inform them of the date and time of a mandatory Graduate Academic Standards Committee hearing to adjudicate the current charge of academic misconduct. The Dean will convene the Graduate Academic Standards Committee within ten working days after receipt of the most recent charge.

2. The Graduate Academic Standards committee will conduct a hearing to review the case and hear the student’s appeal, if any, of the charges and course-related sanctions imposed already by the instructor. The student may be accompanied by anyone serving in an advisory capacity, and has the right to call witnesses. However, during the hearing no party may be represented by legal counsel.

If the Graduate Academic Standards Committee dismisses the charge, the student and the faculty member bringing the charge will be informed in writing. The faculty member has the right to appeal the Committee’s decision. If the Graduate Academic Standards Committee finds the student guilty, it may either simply affirm the instructor’s course-related sanctions, impose an additional penalty or it may recommend that the Vice President for Academic Affairs dismiss the student from the College.
The Graduate Academic Standards Committee will render its recommendation in writing to the Vice President for Academic Affairs within five working days after completing its hearing. The Vice President for Academic Affairs will communicate his/her decision about penalties in writing within ten working days of the Graduate Academic Standards Committee hearing, with copies sent to the appropriate faculty member, department chairperson, and the Registrar’s Office.

3. A final, official letter documenting a second or additional act of acknowledged or proven academic dishonesty will be placed in the student’s confidential file in the Registrar’s Office.

4. A student dismissed for academic dishonesty may appeal for reinstatement to Medaille College through the Vice President for Academic Affairs after a period no less than one full academic year after the time of dismissal. The Vice President for Academic Affairs will consult with the Graduate Academic Standards Committee before making a decision on reinstatement.

**Academic Grievance Procedure**

Should a student wish to resolve an academically related conflict with an instructor, the Academic Grievance Procedure should be followed. The student should attempt to resolve the conflict directly with the instructor, if possible. If the conflict cannot be resolved between student and instructor, the student should bring the problem to the department chairperson. If still not resolved, the Vice President for Academic Affairs should be contacted in writing. If still lacking a resolution to the problem, the final step would be to approach the President with the conflict.

**Grade Appeal**

Students wishing to appeal a final grade in a course must do so in writing within 60 days of the semester's grade report. This written appeal should be directed to the instructor of the course in question. Next, the instructor's department chairperson and, thereafter, the Dean of the School of Adult and Graduate Education.

**Course Prerequisites**

Students may not register for a course without the required prerequisite(s) or written approval from the department chairperson.

**Placement**

The following are overall placement results from the graduating class of 2003 (based on responses from 68% of the 2003 graduates):

- Graduates employed 95%
- Graduates enrolled in further schooling 14%
- Total overall placement 97%
Information regarding completion rates and other student data is available upon request from Medaille College's Office of Institutional Research and Planning.

**Academic Records**

**Student Records**

All student records are maintained and made available in accordance with the Federal Family Educational Rights and Privacy Act of 1974. Thus, with some exceptions, all student records are made available for review upon request by that student and the right to challenge the content is provided. No records are released to third persons except as provided in the Family Educational Rights and Privacy Act. Detailed information on the maintenance and availability of student records is available in the Office of the Registrar.

Normally the College will disclose whether or not an individual is now or has been enrolled as a student at the College. This information may include dates of attendance and a student's last known home address, if requested.

**Grade Reports**

Grades can be obtained online through Banner, and are posted with one week following the last day of class. Grades are not given out over the telephone or in person at the Office of the Registrar.

**Transcript of Record**

A student request for a transcript of his/her record must be filed in writing in the Office of the Registrar at least 48 hours in advance of the date it is required. Under no circumstances will an official transcript be presented to a student; it will be issued directly to the institution or individual indicated by the student. Transcripts clearly labeled "Unofficial (for student's use only)" may be given directly to the student for personal use. No fee is assessed for the first transcript requested; however, a $5.00 charge is applied to each additional copy. Transcripts will not be released until all financial obligations to the College have been satisfied.

**Campus Facilities**

Medaille College's main campus is located on 13 attractive acres in the geographical center of Buffalo. The main campus includes the facilities listed below. The College also maintains two branch campuses.

**Main Building**
Centrally located on campus, the Main Building houses the following offices: Academic Affairs, Business, Financial Aid, Registrar, and President. Also located in the Main Building are the Information Office, the College radio lab, TV studio, the New Media Institute (multimedia studio), photography laboratory, classrooms, and department and faculty offices. Elevator service for the handicapped is available in this building. A lift provides accessibility from the exterior and skywalks allow access to Huber Hall and the Kevin I. Sullivan Campus Center. A new auditorium/lecture hall and a veterinary technology animal housing facility, containing a modern clinical laboratory, computer instructional lab and offices, are connected to the Main Building.

**Downey Science Building**

The Downey Science Building, opened in 1987, contains a chemistry lab, two biology labs, an animal technology lab, and faculty offices. It is connected to the Main Building by an atrium and to Huber Hall by a skywalk. The building is named in honor of Dr. Leo R. Downey, President of the College, 1978-1987.

**Huber Hall**

Huber Hall contains classrooms, faculty offices, the Academic Computing Center, and the Medaille College Library. The Academic Computing Center consists of two electronic classrooms and an open lab containing contemporary PCs connected to the Internet via fiber-optic cabling and a T1 line. Current Microsoft Office software applications are available along with a variety of multimedia and course-specific applications. Library services, including the online catalog, 24/7 access to on-line research information, and over 3,000 full text on-line periodical titles, are accessible through Medaille's Home Page (http://www.medaille.edu/). Cooperative arrangements with various colleges and universities in the area and across the state provide access to a wide range of research materials. In addition, the Library contains approximately 55,000 print volumes and 350 print periodical titles. Individual study carrels, study tables, and an informal lounge area are available for the convenience of students. The building is named in honor of Dr. Alice Huber, SSJ, President of the College, 1968-1974.

**Kevin I. Sullivan Campus Center**

Medaille's Kevin I. Sullivan Campus Center, opened in 1994, is the primary facility for campus activities. The building features a gymnasium, running track, weight and exercise room, locker rooms, student affairs offices, lounges, College store, food service, and a multi-purpose room. The building is named in honor of Kevin I. Sullivan, President of the College, 1987-2001.

**Residence Halls - North and South**

A three-story Residence Hall (North), containing 140 student beds, a kitchen and lounge, computer lab, and laundry rooms, was built in 2001. This facility has a mix of both traditional dormitory and apartment style rooms. A second Residence Hall (South), a five-story structure
built in 2003, accommodates over 250 resident students. Traditional dormitory rooms, a lounge, computer stations, and laundry rooms can be found in this facility.

The Admissions Building

The Admissions Building serves as the offices for Medaille College Admissions. This architecturally distinctive building is on the west side of the driveway as one enters the campus.

73 Humboldt Parkway

Housed in this location, east of the driveway, is the Office of Institutional Advancement which includes Public Relations and Publications, Alumni Affairs, and Development.

Parking

Limited student parking is provided on campus where students may park in the lots at no charge provided they have appropriate parking tags for their vehicles. Parking tags are available in the Campus Public Safety Office located in the house at 2 Agassiz Circle. Vehicles without tags are subject to ticketing. Reserved parking for visitors and for physically handicapped individuals is also provided. Temporary stickers are available at the Information Office, just up the stairs of the center entrance in the Main Building. Medaille College is not responsible for theft or damage for any vehicle parked in its parking lots or to any personal property contained within. The College reserves the right to have unauthorized or improperly parked vehicles ticketed or towed at the expense of the owner.

Amherst Branch Campus

The Amherst Branch Campus of Medaille College offers the Accelerated Learning Programs and the Canadian Educational Prep Program. The Amherst Campus is located in the Centerpointe Corporate Park at 400 Essjay Road, Suite 100. Classrooms are equipped with audio-visual aids and are wired for Internet accessibility. A computer workstation and cohort mailboxes are found in the classroom wing. Administrative offices housed at this branch campus include Graduate Admissions, Student Services, Financial Aid, and Academic Services, as well as Accounting and Program Representative Services. Ample parking is available.

Rochester Branch Campus

The Rochester Branch Campus of Medaille College offers the Accelerated Learning Programs and is located in Brighton in the Corporate Woods Office Park at 100 Corporate Woods, Suite 200. Classrooms are equipped with audio-visual aids and are wired for Internet accessibility. Cohort mailboxes are located in the classroom wing. Administrative offices located at this campus include Graduate Admissions, Student Services, Academic Services, and Program Representatives. Financial Aid and Accounting offices are located at the Amherst Branch Campus. Ample parking is available.
Campus Life

Student Government Association

Student activities are coordinated by the Office of Student Activities through the Student Government Association (S.G.A.). Every student of Medaille College is a member of S.G.A. and contributes a $50 per semester activity fee. The Student Senate and S.G.A. Executive Committee distribute the fee to all of the various clubs and organizations which constitute the cocurricular structure of the College. Some of the diverse groups which operate under the auspices of S.G.A. are described below.

Student Activities Board

The Board consists of five committees and is the programming arm of S.G.A. Each committee plans a variety of activities which represent the interests of a diverse student population. In any given year, this may include parties, boat rides, camping and ski trips, horseback riding, theatre excursions, lectures, sports events, and much more. The program complements the traditional events which are held on an annual basis: the Fall and Spring Picnics, Holiday Party, and the Awards Banquet.

M.B.A. Student Organization

The Organization represents concerns of the M.B.A. student population. The M.B.A.S.O. also sponsors activities which are specifically designed for the non-traditional student. A variety of clubs related to academic majors are available for those students interested in applying classroom theory. Academic clubs include the Child and Youth Services Club, Health and Human Services Club, Life Sciences Club, Sports Management Club, Veterinary Technology Club, and the M.B.A. Student Organization. Other clubs include the Resident Student Council, SADD, Cheerleaders Club, Golf Club, Fencing Club, and the Multicultural Association.

Athletics and Recreation

Medaille College offers a variety of sports at the intramural, extramural, and intercollegiate levels of competition including softball, basketball, volleyball, cross-country, baseball, soccer, lacrosse, and flag football. Student interest determines those sports offered. For more information, contact the Student Affairs Office.

NCAA Athletic Program

Medaille College sponsors a Division III athletic program through the National Collegiate Athletic Association and is a new member of the Allegheny Mountain Collegiate Conference. Medaille College currently offers eleven intercollegiate athletic programs including: baseball,
softball, women's cross country, as well as men's and women's soccer, volleyball, basketball, and lacrosse.

**The Perspective (Newspaper)**

The Perspective is published not only to inform and to keep the student body updated on issues and events that pertain to them, but to entertain and educate as well. The paper is published during the school year and open to all students.

**Prelude (Literary Anthology)**

Prelude provides a creative outlet for campus poets, writers, and artists. Edited and produced by students in cooperation with a faculty advisor, Prelude prints original poetry, fiction, creative non-fiction, and artwork reproductions. Editors gain experience in administration, editing, and desktop publishing. Prelude is published once a year, near the end of the spring semester.

**TV Studio**

The Media Department operates a TV studio which allows students to learn various aspects of broadcast production from computer graphics to directing and editing a television program. Students produce their own half-hour talk show called "Medaille Magazine," which airs on local cable systems. Hands-on experience at the production facility is encouraged. The TV Studio also operates in conjunction with the New Media Institute on various multimedia projects.

**WMCB Medaille College Radio**

Medaille's on-campus radio lab offers an opportunity for all Medaille students to gain valuable experience in radio broadcasting, both on and off-the-air. The student staff includes news and sports writers, and air personalities and producers. WMCB airs diverse types of music from urban and alternative to classical.

**Alumni Association**

The Alumni Association promotes camaraderie among former students of the College, keeps alumni informed of innovations at the College, and supports the College through its fundraising activities. Special events are held throughout the academic year. Regularly scheduled meetings are held in the Alumni Room. Please call the Director of Alumni Relations on campus or check the Alumni pages on our web site for the current schedule.

**Family Weekend**
The College sponsors a weekend of activities each fall for parents and families of students. This provides an opportunity for family members to meet faculty, staff, and administrators and learn more about the College and its educational programs.

**Campus Crime Prevention and Security Program**

Medaille College's Campus Public Safety and Student Affairs staffs work together with the Campus Crime and Sexual Assault Committee to facilitate a proactive approach to crime prevention, security, and safety on campus. Students are informed about security issues during New Student Orientation. In addition, a variety of educational programs are offered to heighten awareness of public safety. Topics such as sexual assault, self-defense, and crime prevention/safety awareness are discussed by facilitators from both the campus and the community-at-large.

**Tuition Policy and Financial Aid**

**Tuition Payment Policy**

Tuition and fees are due and payable on or before the first scheduled day of classes each semester. **Satisfactory payment arrangements must be established by the first day of class to avoid a $150.00 late fee.** Satisfactory payment arrangements include payment in full (Medaille College accepts payment by cash, check, money order, Master Card, Visa, Discover Card or American Express), completion of financial aid/student loans, enrollment in the monthly payment plan through Tuition Management Systems or documentation of employer reimbursement. A combination of payment arrangements may be utilized. Please be advised that prior semester balances cannot be carried over to the next semester and will prohibit a student from registering for the next semester, receiving his/her grades, transcripts or diploma.

Exchange discounts are offered to Canadian students based on their anticipated course of study when payment occurs as described above. Generally, two and four-year baccalaureate degree candidates are provided a discount not to exceed $1,900 per semester based on full time enrollment and modified for academic scholarships awarded. Canadian students enrolled in the Education Preparation Program receive a 20% exchange discount. Any cash discount previously granted will be voided should a student withdraw from the college or fail to complete a course of study for any other reason.

Should a student need to establish a monthly payment plan he/she would need to do so through Tuition Management Systems (TMS), an outside payment arrangement service. TMS is an interest free monthly payment option, with an annual enrollment fee of $60.00 or a $45.00 enrollment fee for the semester based plan. A student’s expenses are broken out over the academic period for which, they are/will be enrolled in. For example, if a student is anticipated to be attending for the academic year their budget would be estimated based on the Fall and Spring semesters and he/she would be eligible for a nine or ten month payment plan. **If a student were planning on attending for only one semester, he/she would be eligible for a four or five**
month plan. The term of the payment plan would be based on the date of registration and limited to offered plan options. Students should contact the Medaille College Business Office for additional information.

If a student is receiving financial aid/loans, they are able to amend their payments to TMS, through the Medaille College Business Office. All scheduled payments must be made to TMS until the financial aid/loans are guaranteed. It is the student’s responsibility to inform Medaille College of any awards and the college will then inform TMS, of any revisions to their budget.

A student receiving employer tuition reimbursement is required to provide the College with a letter from their employer prior to the first scheduled day of classes identifying the employee-student and the terms of the employer’s reimbursement policy. Assuming the necessary documentation has been received, Medaille College will recognize the employer’s tuition payment policy and defer receipt of tuition and/or fees accordingly. Future semester deferments are only available to students who fulfill their payment obligations in accordance with the employer reimbursement plan. Failure to do so will result in a $150.00 late fee assessment to the student’s account.

Students owing a balance or whose financial aid has not been completed and are not registered with TMS will be expected to pay the balance of their tuition for the semester in full (minus any financial aid), by the first day of class. Students opting to pay their tuition in full, rather than utilizing the TMS payment plan and who fail to make their payment, by the first day of class will be assessed a $150.00 late charge.

Please do not hesitate to contact the Medaille College Business Office at (716) 880–2267, with any questions regarding this payment policy.

Tuition Discounts

Certain discounts are to be granted to students when net tuition payments are received by the Business Office, by cash or check only, prior to the student's first scheduled class each semester. Net tuition is defined as tuition not funded through the use of financial aid. Should a student withdraw at any time during a semester after the discount has been applied or financial aid been reduced, creating a student balance, the discount will be reversed and said balance is due and payable immediately. The three types of discounts are:

1. A Canadian student accepted into a two- or four-year course of study leading to a baccalaureate degree is eligible to receive a discount against tuition resulting in acceptance of Canadian dollars at par value, limited to $3,800 per year, and modified somewhat when the student is receiving an academic scholarship as well. Other Canadian students receive a twenty percent (20%) exchange discount.
2. A fifteen percent (15%) Alumni discount is offered to students who have received a baccalaureate degree and are returning for additional courses. This discount will be provided against the cost of any undergraduate credit-bearing course. Graduate program courses, non-credit bearing courses, and audited courses are specifically excluded.
Tuition Liability Policy

Tuition liability adjustment will be made only in the case of an official leave of absence or withdrawal and the Withdrawal Form must be filed in person at the Registrar's Office. The amount of any adjustment will be determined using the date of filing and the schedule below. An alternate schedule may apply in the case of Federal financial aid recipients.

NO ADJUSTMENT WILL BE MADE IN THE CASE OF AN UNAUTHORIZED WITHDRAWAL.

The College schedule of tuition liability for the Fall and Spring semesters is as follows:

**Day/Evening/Weekend/Full Semester Classes Tuition Liability**

If the official withdrawal date is:

<table>
<thead>
<tr>
<th>Prior to start of 2nd week</th>
<th>0%</th>
</tr>
</thead>
<tbody>
<tr>
<td>After start of 2nd week</td>
<td>40%</td>
</tr>
<tr>
<td>After start of 3rd week</td>
<td>60%</td>
</tr>
<tr>
<td>After start of 4th week</td>
<td>80%</td>
</tr>
<tr>
<td>After start of 5th week</td>
<td>100%</td>
</tr>
</tbody>
</table>

**Module Classes**

Based on either Monday/Wednesday or Tuesday/Thursday schedule, each module in which a student is enrolled, if the official withdrawal date is:

<table>
<thead>
<tr>
<th>Prior to drop/add deadline</th>
<th>0%</th>
</tr>
</thead>
<tbody>
<tr>
<td>After drop/add but before start of 3rd class</td>
<td>40%</td>
</tr>
<tr>
<td>After start of 3rd class</td>
<td>60%</td>
</tr>
<tr>
<td>After start of 4th class</td>
<td>80%</td>
</tr>
<tr>
<td>After start of 5th class</td>
<td>100%</td>
</tr>
</tbody>
</table>

Tuition liability for the Summer session will be calculated according to the following schedule:

**Day and Evening Classes Tuition Liability Will Be:**

<table>
<thead>
<tr>
<th>Prior to drop/add deadline</th>
<th>0%</th>
</tr>
</thead>
<tbody>
<tr>
<td>After drop/add deadline</td>
<td>100%</td>
</tr>
</tbody>
</table>

**Refund of Excess Financial Aid Awards**

There is an unpredictable lapse of time between the issuance of the notice of financial award, which is sent to the student and College, and the actual receipt of funds from federal/state programs. As funds are received in the Business Office, they are promptly credited to the
appropriate individual student's account. When such posting to a student account results in a credit balance, the overage will be refunded to the student within 14 days from the posting date.

**Grants**

New York State Tuition Assistance Program (TAP) awards range up to $550 per academic year and are based on New York State net taxable income. TAP is only for students who have registered for at least 12 credit hours per semester. Students must be New York State residents and, if eligible, may qualify for up to eight semesters of TAP while pursuing a master's degree. Apply by submitting the FAFSA (Free Application for Federal Student Aid). Students must maintain Satisfactory Progress to receive this award. (See section in this catalog entitled "Satisfactory Progress.")

**Loans**

The Federal Stafford Loan Program is a need-based program which allows students to borrow from participating lenders. The maximum loan eligibility per academic year is $8,500 for graduate students. The maximum that may be borrowed as a graduate student is $65,500 which includes Federal Stafford loans borrowed for undergraduate study. The interest rate is an annual variable rate capped at 8.25%. Repayment begins six months after the student either leaves school or drops below half-time enrollment. There is no interest paid or accrued while the student is enrolled at least half-time. The loan must be repaid within 10 years, exclusive of deferment periods. Apply by submitting the Financial Aid Application and the FAFSA. Students must maintain Satisfactory Progress to receive this loan. (See section in this catalog entitled "Satisfactory Progress.")

The Unsubsidized Federal Stafford Loan Program is available, regardless of family income, to students who do not qualify for the regular subsidized Stafford Loan or who are not eligible for the maximum subsidized Stafford Loan. The combined Subsidized and Unsubsidized Stafford annual loan limit is $18,500. The combined aggregate limit is $138,500, which includes loan amounts borrowed for undergraduate study. The terms and conditions of the subsidized and unsubsidized loans are generally the same, except that borrowers are responsible for the payment of the interest that accrues on unsubsidized loans while they are in school. The term unsubsidized means that interest is not paid for you by the federal government while you are in school. The interest rate is an annual variable rate capped at 8.25%. Apply by submitting the Financial Aid Application and the FAFSA. Students must maintain Satisfactory Progress to receive this loan. (See section in this catalog entitled "Satisfactory Progress.")

**Other Financial Assistance**

The Master of Science in Education Discount Program extends to education professionals at participating Catholic and private schools* a 30% tuition reduction for each semester they attend Medaille College. Students must take a minimum of 6 credit hours each semester to be eligible. The qualified applicant also will be required to maintain a GPA of 3.0. *(For details on program participation, please contact the Office of Graduate Admissions.)
The Master of Science in Education Tuition Reduction Scholarship will be awarded to one graduate from Medaille's Bachelor of Science in Education Degree programs (excluding the Educational Preparation program) per year. To be eligible, the student must enroll in a Master of Science in Education Degree program within one year of completion of the undergraduate degree, have a minimum GPA of 3.25, and provide two letters of recommendation from Medaille College faculty. The scholarship is available for each semester that the student attends and is equivalent to 30% of tuition. The successful candidate will be required to take no fewer than 6 credit hours per semester and maintain a GPA of 3.5. Scholarship recipients will be expected to perform duties as a graduate assistant.

Vietnam Veterans Tuition Assistance Program may provide financial assistance to some veterans enrolled in graduate degree programs. For an application contact New York State Higher Education Services Corporation, 99 Washington Avenue, Albany, New York 12255 or go online to www.va.gov/education.

Vocational and Educational Services for Individuals with Disabilities (VESID), formerly Office of Vocational Rehabilitation (OVR), benefits are available for students with certain physical or emotional disabilities. Contact the New York State Vocational Rehabilitation Commission.

The Federal College Work-Study Program (CWSP) allows students with financial need the opportunity to work in jobs on campus to earn part of their educational expenses. Students may apply by submitting the FAFSA. Students must maintain Satisfactory Progress to receive this award. (See section in this catalog entitled "Satisfactory Progress.")

Veterans Benefits are available for students who qualify. In order to determine eligibility, the Department of Veterans Affairs or the Medaille College Financial Aid Office should be contacted.

Federal Aid to Native Americans is a grant offered by the U.S. Bureau of Indian Affairs for college study. To be eligible, the applicant must: (1) be at least one-fourth American Indian, Eskimo, or Aleut; (2) be an enrolled member of a tribe, band, or group recognized by the Bureau of Indian Affairs; (3) be enrolled in or accepted for enrollment in an approved college or university pursuing at least a two-year degree; and (4) demonstrate financial need.

An application is necessary for each year of study and must be accompanied by an official needs analysis from the Financial Aid Office. Each first-time applicant is required to submit tribal enrollment certification from the bureau, agency, or tribe which records enrollment for the tribe. The student must make satisfactory progress towards a degree and show financial need for grants to be awarded in successive years. Applications are available from the Bureau of Indian Affairs, 3701 North Fairfax Drive, Suite 260, Arlington, Virginia 22203.

New York State Aid to Native Americans is an entitlement program, with neither a qualifying examination nor a limit on the number of awards. Applicants must be (1) a resident of New York State; (2) on an official tribal roll of a New York State tribe or the child of an enrolled member of a New York State tribe; and (3) enrolled in an approved New York State postsecondary
Financial Need

Financial need is determined by using the Family Contribution as determined by the FAFSA and subtracting it from the cost of attendance.

Cost of Attendance - Family Contribution = FINANCIAL NEED

The Free Application for Federal Student Aid (FAFSA) is available from the Financial Aid Office.

Satisfactory Progress

Students must maintain Satisfactory Progress in order to receive Financial Aid. PLEASE NOTE: THERE ARE DIFFERENT REQUIREMENTS FOR STATE AND FEDERAL FINANCIAL AID.

The following chart explains the requirements for renewed eligibility for state financial aid for Graduate Programs:

<table>
<thead>
<tr>
<th>In order to receive state aid for this semester:</th>
<th>You must accumulate at least this many credits:</th>
<th>With a GPA of:</th>
</tr>
</thead>
<tbody>
<tr>
<td>1st</td>
<td>0</td>
<td>0</td>
</tr>
<tr>
<td>2nd</td>
<td>6</td>
<td>2.00</td>
</tr>
<tr>
<td>3rd</td>
<td>12</td>
<td>2.50</td>
</tr>
<tr>
<td>4th</td>
<td>21</td>
<td>2.75</td>
</tr>
<tr>
<td>5th</td>
<td>30</td>
<td>3.00</td>
</tr>
<tr>
<td>6th</td>
<td>45</td>
<td>3.00</td>
</tr>
<tr>
<td>7th</td>
<td>60</td>
<td>3.00</td>
</tr>
<tr>
<td>8th</td>
<td>75</td>
<td>3.00</td>
</tr>
</tbody>
</table>

Please note: students may receive only eight semesters of TAP.

In addition, you must meet PROGRAM PURSUIT regulations which require that during your first two semesters of TAP you must COMPLETE at least 6 credit hours per semester, at least 9 credit hours per semester for the 3rd and 4th semesters, and at least 12 credits for your 5th and all succeeding semesters.

The following chart explains the requirements for renewed eligibility for federal financial aid for Graduate Level Programs:
In order to receive federal aid for this semester:

<table>
<thead>
<tr>
<th>1st</th>
<th>0</th>
<th>0</th>
</tr>
</thead>
<tbody>
<tr>
<td>2nd</td>
<td>9</td>
<td>2.00</td>

<td>39</td>
<td>2.75</td>
</tr>
<tr>
<td>6th</td>
<td>51</td>
<td>3.00</td>
</tr>
</tbody>
</table>

Part-time student credit requirements will be pro-rated based upon the number of credits carried. GPA requirements are the same.

If you do not achieve these Satisfactory Progress Requirements, you will not be eligible for additional semesters of financial aid until you obtain the necessary requirements. If you encounter extraordinary difficulties which prohibit you from achieving the above minimum requirements, you may qualify for a waiver of these requirements. Please contact the Financial Aid Office for details.

**Services for New Students**

**New Student Orientation**

At the beginning of each semester, new students in each graduate program take part in group orientations to Medaille College and their respective program. Acquainting students with College and Graduate Programs, staff and faculty, as well as dealing with common student questions, are the major emphases of the orientation program.

Orientation provides students with an opportunity to work with College personnel and discuss academic procedures, expectations, and requirements. Orientation also provides an easy way for new students to get acquainted with each other and become familiar with the campus setting. Students are notified by mail as to the date for orientation. The College requires that each new student attend orientation. Students are charged a mandatory fee, as outlined in the letters they receive via mail and their College bill.

**Student Handbook**
Each year a Student Handbook is made available which includes the information students need to know about campus life and activity. It provides a handy reference for office hours, personnel, college procedures and policies, and services that are important to all students.

**Identification Cards (IDs)**

Identification cards are required for all students and can be obtained through the Campus Public Safety Office. They must be shown to use the Academic Computing Center, the Kevin I. Sullivan Campus Center, or to take books from the Library. ID cards are also important for admission to many student events.

**Lockers**

You may want to rent a locker to store books, coats, and supplies. There is a small rental fee. Arrangements can be made in the Student Affairs Office.

**Parking Tags**

If you drive a car to campus, you will need a parking tag. It can be obtained at the Campus Public Safety Office.

**Student Offices**

**Admissions Office**

Potential students receive counseling regarding Medaille's academic programs and the admissions requirements for these programs.

**Business Office**

The Business Office maintains student billing records for the College. Students must visit the Business Office to complete their registration each semester by making payment arrangements prior to the start of the semester. Questions concerning your student bill or payment arrangements should be directed to the Business Office.

**Campus Center**

The programs and services offered through the Kevin I. Sullivan Campus Center are a vital part of the educational experience at Medaille. The facility serves as a focal point for college community life and a training ground for students in assuming social responsibility and leadership. The cultural, educational, social, and recreational programs are intended to make free-time activity a cooperative venture with classroom learning.
The Center houses a regulation NCAA basketball court, volleyball courts, jogging track, weight and exercise room, locker rooms, training room, food service area/multi-purpose room, College Store, student lounges, student club and organization area, and a private dining room. It also houses the Office of Student Affairs, including the Dean and Associate Dean of Students, Career Planning, New Student Orientation, Diversity Affairs, Student Activities and Recreation, Special Programs, Intercollegiate Athletics, and Health Center.

The Campus Center program serves students, faculty, staff, alumni, and guests in developing well-rounded individuals working together to enhance the educational opportunities provided through the College.

**Campus Public Safety Office**

The College's Campus Public Safety Office is located in the house at 2 Agassiz Circle and its primary responsibility is to work proactively with students, faculty and College departments to identify, reduce and remove the opportunity for crime and criminal activity before it occurs. Public Safety Officers patrol campus buildings, grounds, parking lots and facilities, control traffic and parking as necessary, and are responsible for the safety and security of the College community. Student identification cards and parking permits are available at this office as well as information and literature to assist in preventing crime and victimization. Anyone encountering safety or security issues, or observing criminal activity, should report it immediately to the Campus Public Safety Office. The Campus Public Safety Office phone number is: (716) 880-2911.

Medaille College annually supplies a security report containing statistics, policies, and a description of programs that promote campus safety. A copy of this report is available to all prospective students and employees, and may be requested by contacting the Admissions Office, the Student Affairs Office, the Public Safety Office or the Web site of the U.S. Department of Education.

**Career Planning**

Take advantage of the career planning services provided by the College. These services are offered to all Medaille students. Many of these services remain available to you once you have graduated, too. Check Medaille College's Career Planning web site, www.medaille.edu/careerplanning, for semester activities, career and job search assistance.

- **Career Planning**—If you would like to discuss your choice of a major, learn about the kinds of jobs available in your field, or discuss your job search, stop in and make an appointment.
- **Career Library**—The Career Library includes career and occupational information, employer directories, and career planning guides. Books can be borrowed for up to two weeks with a student ID.
• Group Workshops--Free workshops are offered to all Medaille students. They are scheduled several times every semester for the convenience of day and evening students. The workshops offer help in the following areas: writing cover letters, writing resumes, interviewing, and learning more about yourself through interest inventories. Times, dates, and locations are publicized throughout the College. In-class workshops are frequently conducted.

• Interest Inventories--If you wish to explore your career options by learning more about yourself, you can take an interest inventory and discuss the results.

• Job Listings, Full-Time and Part-Time--Job listings are available to all students and alumni through our on-line system. Each day new jobs are entered for those individuals looking for employment to assist with college costs or those seeking their career-related positions. Visit www.medaille.edu/careerplanning and click on Employment.

• Job Search Events--Each semester various events are held to assist students at all levels with career or job-related concerns. Networking events, career fairs, and recruitment activities are designed to help students make connections with the employment community.

• Credential Folder--Students may establish placement folders containing references and field placement evaluations. These folders are kept on file and mailed to potential employers upon request.

College Store

The College Store operates for the convenience of Medaille's students and faculty. School supplies and Medaille College clothing and souvenir items are also offered for sale in the College Store. Textbooks can be ordered online at http://direct.mbsbooks.com/medaille.htm.

Computer Center

The Academic Computing Center (ACC) is located on the second floor of Huber Hall and consists of a 30-workstation open lab, a 25-workstation classroom, and a 20-workstation classroom. The lab is populated with Dell Pentium 4, 3.0 GHz PCs with 512 MB of dual-channel PC3200 (400 MHz) DDR SDRAM and the larger classroom contains Pentium 4, 2.4 GHz PCs with 512 MB of PC-1066 RDRAM. The smaller classroom contains P4, 1.5 GHz PCs with 256B of PC-800 RDRAM. Each machine has a DVD player, Zip-250 drive, sound card and optical scroll mouse, and utilizes a 17" LCD. All ACC computers run Microsoft Windows XP Pro and are networked via fiber optic backbone accessing the Internet through a T1 line.

Each PC room has both laser and color inkjet printers. The ACC runs Microsoft Office XP Pro and MS Visual Studio.NET, along with a variety of course-specific software applications and standard utility applications. Select machines offer Macromedia Studio MX and Print Shop Pro Publisher. Scanners and CD-RW drives are available on select machines. For enhanced presentations and visual demonstrations, both classrooms are equipped with interactive, touch-sensitive Smart-Boards.

Counseling Office
The Counseling Center is staffed by a Nationally Certified Counselor and provides free and confidential services to all registered Medaille students. Counseling Services are designed to help students understand themselves better, resolve problems, and come to terms with difficult issues. Specific services include individual counseling, group counseling, and self-improvement workshops. Referrals to outside professionals can be provided. Self-help materials on a wide variety of copies are available.

The Counseling Center as part of the Office of Student Affairs, is committed to enhancing the well-being of the student, and promoting life-long learning and health. These services are an integral piece of a campus climate that is committed to diversity, personal attention, and the development of the whole person!

**Center for Multicultural Education and Diversity**

The Center for Multicultural Education and Diversity at Medaille College operates on the premise that lifelong intellectual and professional growth is one where differences are highly valued. The center advocates for an inclusive campus environment that respects the pluralistic perspective and promotes equity and appreciation for human diversity among its students, faculty, administrators and staff. The center educates, promotes, and serves to empower the campus community on issues of diversity, multiculturalism and the value of human differences.

**Financial Aid Office**

All students are urged to visit the Financial Aid Office to learn about the types of aid available. If you have any questions regarding TAP (Tuition Assistance Program), loans, or other financial assistance, please contact the Financial Aid Office.

**Food Service**

The Cafeteria in the Kevin I. Sullivan Campus Center serves breakfast, lunch and dinner Monday through Friday, as well as brunch and dinner on Saturday and Sunday. Come for a meal or a snack or just to socialize. Catering service is also available for the entire Medaille community.

**Health Center**

The Health Center is located on the second floor of the Kevin I. Sullivan Campus Center and is staffed by a Registered Nurse. The office coordinates health records, immunization, provides for health and wellness needs, first-aid, health insurance, and educational programming.

**Housing and Residence Life Office**

Medaille College requires campus residency for students less than 21 years of age who do not live within commuting distance and for local students wishing to participate in the residential experience. The residence life program emphasizes a high-quality environment and is
coordinated by professional staff located in the South Hall Dorm. Several options are available including on-campus living in a small group setting which provides a comfortable living-learning environment, residence hall/apartment complex facilities, as well as college sponsored off-campus apartments. Priority is given to students from outside the immediate Buffalo area. Non-traditional students or transfers over 21 who may be interested in living off-campus may contact the Housing and Residence Life Office which has a list of rooms and apartments near the College. While Medaille provides an off-campus referral service, the College accepts no further responsibility in transactions between students and landlords.

Information Office

Can't remember where the Registrar is? Lose your car keys? Want to leave a note for your instructor? The Information Office can help you with these things and many more. If they can't answer your questions, you'll be directed to someone who can. It's a combination mailroom, switchboard, and lost and found. Facsimile services are also available at a reasonable charge.

Library

Your college days would not be complete without frequent visits to the automated Medaille College Library for that "special" help so necessary for the completion of successful college assignments. Whether it be research needs, a quiet place to read, or locating instructor reserve information or materials, the Medaille library staff is always there to help. Library services are electronically accessible through Medaille's Home Page on the Internet (www.medaille.edu).

A validated college ID card is necessary to take books out of the library, so please remember to carry it with you.

Multimedia Studio - New Media Institute (NMI)

The Multimedia Studio, also known as the New Media Institute (NMI), is dedicated to teaching and training students in the trends of multimedia technologies. This includes the necessary skills to use the hardware and the software to create interactive CD-ROMs, designing World Wide Web pages, creating professional presentations, and compiling digital portfolios. The Multimedia Studio has nine Apple PowerMac G4 computers, each equipped with 733 MHz RAM, 42 gigabyte hard drive space, CD-R/CD-ROM drive, 17" color monitors, Iomega 250 Zip drive, Wacom graphic tablets and external multimedia microphones. Additionally, two multimedia/digital video editing stations are equipped with DVD-R/DVD-ROM drives, Apple Harmon-Kardon external speakers, two VCRs, and an analog-to-digital video converter. The Multi-media Studio also has a black-and-white laser printer, color photo printer, two flatbed scanners, a Nikon film/slide scanner, digital still cameras, a digital video camcorder, and two multimedia projectors for student/faculty use. Fast, T1 Ethernet Internet access is available at each machine and for laptop users as well. This facility offers the most up-to-date operating system and software needed to create video presentations, DVD authoring, web site creation, graphic design, 3D rendering, image and sound manipulation, and multimedia presentations and projects.
Registrar's Office

The Registrar's Office maintains the academic records of all students who have enrolled at Medaille. You should visit the Registrar's Office if you wish to drop or add a course, withdraw from a course, or inquire about graduation status. The Registrar's Office also can tell you who your advisor is and when the next registration period will occur.

Special Academic Services Office

The Special Academic Services Office coordinates academic support services that assist all students with the many transitions that occur during a college career. Student success is a special focus of this office as the Senior Director of Special Academic Services is a liaison for students and is able to answer questions or address concerns or complaints that students may have.

Academic Skills Center

The Academic Skills Center offers a full range of learning services. Limited peer and professional tutoring in a variety of disciplines are available at scheduled times and upon request. Computers with Internet access, study skills workshops, audio/visual resources, reference materials and space for study sessions are all provided in the Center.

Disability Services Office

The Disability Services Office endeavors to assist students with disabilities in all aspects of their college life. Students requesting services and/or accommodations must contact the Disability Services Office directly.

Student Affairs Office

The Office of Student Affairs is the center for student involvement and provides a variety of services and information such as off-campus housing options, bus routes, locker rentals, and the master calendar of events. Student groups wishing to reserve space on campus should obtain a reservation form in Student Affairs. The office is open several evenings to assist students in the module schedule and keep them updated on campus events and services. Stop in any time to ask questions regarding student life at Medaille.

Substance Abuse Education

Medaille College provides educational programming related to substance abuse. This includes participation in the National Collegiate Alcohol Awareness Week and various workshops/symposiums related to alcohol and drug use/abuse. Individual personal counseling for individual members of the College community is available through the counseling office as well as referral to community agencies in the Buffalo area. Please refer to the Student Handbook for additional information.
Hegis Codes

Enrollment in other than registered or otherwise approved programs (by the State Education Department) may jeopardize a student's eligibility for certain student aid awards. ¹

Master’s of Science in Education: 
Curriculum and Instruction

Medaille’s Curriculum and Instruction program is unique to Western New York. This Master’s program teaches participants to design innovative curriculum and creative instruction for the classroom of tomorrow. Emphasizing critical thinking, research, and academic writing, graduates of Curriculum and Instruction are academically prepared to effectively design, implement and evaluate curriculum for their school or for their district.

Our highly qualified faculty work along side students to understand American social and economic forces which have historically shaped education. Teachers will examine the contemporary issues affecting the curriculum and instruction of schools. Through integrated classes, students explore American culture and society. Graduates examine how these forces influence school texts and pedagogy.

Students gather original qualitative research data. The faculty of Curriculum and Instruction encourage students to be creative and utilize their special interests and talents as part of their coursework. Students who graduate with a Master’s of Education in Curriculum and Instruction are academically prepared to pursue additional training in text book evaluation, administration, urban education, or become curriculum specialist. All Curriculum and Instruction students are prepared to continue on to advanced degrees. The creative and highly trained professionals of Curriculum and Instruction will help you prepare the students of today for the global world of tomorrow.

Curriculum and Instruction (M.S. in Ed.)

Degree Conferred: Master of Science in Education (M.S. in Ed.)

The Curriculum and Instruction program provides the academic requirements for permanent certification in elementary education for provisionally certified education professionals and provides a Master of Science in Education degree for those who have already achieved a baccalaureate degree. The goal of the program is to produce graduates who can effectively design, implement, and evaluate curriculum.

Program of Study

The Curriculum and Instruction program provides a 36 credit course of study consisting of core courses, liberal arts, and a capstone project.

Core Courses

Seven core courses introduce methods of education research, curriculum design, evaluation, planning, theories of learning, and practical teaching techniques.
Liberal Arts Courses

All students will be required to take the following four liberal arts courses: Narrative Practicum and Workshop, The Essay Tradition: Classic and Contemporary Essays on Learning and Language, Socio-Cultural Anthropology, and Leadership: A Social Perspective.

Capstone

Students are required to take a Capstone or Thesis Guidance course which assists graduates to create an action research project and integrates and summarizes their program.

Curriculum and Instruction Course Descriptions

ECI 510 Research in Education

This course affords the graduate student an overview of the methods used in educational research. Students will study and apply different methods of quantitative and qualitative research. The course will further increase a student’s understanding of research methodology and design. The central focus will be on action research which will lead to the culminating project within the Master’s Program. At the completion of this course, students will have identified their thematic concerns and will have begun the cycle of action research.

ECI 520 Seminar: Reflections on a Climate for Learning

This course defines curriculum as a planned educational response to the needs of society and the individual. It requires that the learner construct knowledge, attitudes, values, and skills through a complex interplay of mind, materials, and social interactions. Upon examining current theories and trends in curriculum and assessment design, students will reflect upon climates for acquiring knowledge by transforming curriculum into active and meaningful learning experiences.

ECI 530 Educational Explorations in Diversity

This course is designed to provide theoretical and applied knowledge of practical methods, strategies, and techniques used to successfully meet the diverse needs of today’s inclusive classroom.

ECI 540 Learning, Thinking and the Curriculum
This course is designed to examine theories of learning and thinking as they interact with the elementary classroom disciplines. Curriculum will be reviewed to determine if skill development correlates with the theorists’ contribution regarding the learning process.

**ECI/HUM 550 Narrative Practicum and Workshop**

This course teaches advanced skills for taking research experiences and turning them into effective narratives, appropriate to be incorporated into thesis projects. The course begins with exercises on building style. Thereafter, the course will examine what narrative (or, as it is sometimes known, storytelling) is and how, when used effectively, it can serve as an impressive vehicle for imparting a complete picture of a research problem and findings. Essays will be examined which successfully braid personal experience, research, fieldwork, and other components into complex, interconnected narratives. Short preliminary essay assignments will prepare the student to begin to use narrative form to convey their research findings. The second half of the semester will be structured as a workshop, with students presenting rough and then final drafts of their own extended, braided narratives for in-class critique, in an ongoing process of revision toward a final product. At semester’s end, students will hand in a portfolio of revised writings, including all draft stages of all assignments and final revisions.

**ECI/HUM 560 The Essay Tradition: Classic and Contemporary Essays on Learning and Language**

The course surveys non-fiction prose from Ancient Culture to Postmodernity with particular emphasis on the development of the essay tradition in English. Special attention is paid to essays within the Humanities that address issues of learning and language. In the first half of the term, students read and respond to representative pieces of non-fiction prose from the Ancients to the Victorians, and in the second half, they read and respond to representative pieces of non-fiction prose from writers of the modern and postmodern periods. Throughout the term, students study the rhetorical and formal characteristics of essays, examine the historical, social, and political conditions that shape the production and reception of essays, and investigate the importance of the essay form to the production and communication of knowledge and meaning.

**ECI/APY 570 Socio-Cultural Anthropology**

A graduate level introduction to the social science discipline of anthropology. Utilizing the discipline’s cross-cultural perspective, the course focuses on the interplay between the biological and socio-cultural elements in human behavior, issues regarding human nature and development, and the importance of social and cultural factors in human adaptation. Students will explore the principles of ethnographic research and the potential for applying anthropology’s insights to other fields of endeavor.

**ECI/SSC 580 Leadership: A Social Perspective**
This course is designed to provide students with a survey of patterns of human interaction and leadership in different cultural and social settings. It also exposes students to leadership development models in contemporary society. Attributes of both past and contemporary leaders and followers will be examined while students develop a model of their personal philosophy or approach to leadership as well as skills needed to analyze organizational dynamics.

**ECI 610 Transitions from Education’s Roots to the Present**

This course provides a bridge from the works of past theorists and practitioners to current ideas and innovative teaching procedures of present day educators. A core of influential thinkers, such as Dewey, Skinner, Rogers, Piaget, and Gardner, etc., will be used.

**ECI 624 Theory and Practice of Curriculum Development**

The focus of this course is the application of curriculum theory to classroom practice. The students will experience the spectrum of curriculum design and explore the historical roots of current curriculum issues and practices. Students will critique the changing concepts of curriculum, conflicting curriculum and educational rationales and influences for and against change. The students will be able to discuss major crosscurrents in reform and reconstruction and will focus on curriculum research and improvement. Through a critically reflective orientation to curriculum work, students will begin to develop their own theories that will influence their development and implementation of curriculum.

**ECI 634 Evaluation of Curriculum**

This course is designed to investigate the background and current status of assessment. Principles, purposes, and procedures used to evaluate curriculum and pupil progress will be reviewed. An emphasis will be placed on the effective interpretation of evaluative data, methods of recording and reporting progress.

**ECI 695 Seminar: Teacher as Researcher**

This directed project requires student cohorts to become involved in the internal workings of an educational institution. In light of action research and using appropriate technology, the student cohorts will not only identify an educational problem or concern within the arena of education, but they will also reflect upon and research some of the solutions to that problem. The problem/concern will be identified early in the graduate program and carried to its required completion in this culminating activity as it is researched appropriately in lieu of the knowledge gained within the various required/selected courses throughout this graduate program.
Master’s of Science in Education:
Elementary Education

Medaille College is a leader in the preparation of students to become classroom teachers. Our childhood curriculum prepares you to nurture and educate children from diverse backgrounds. We prepare you in all aspects of today’s challenging classrooms. Our program will support you as you become a skilled critical thinker in the classroom. Committed to the service of teaching, we will help you reflect on the long history of public education as a vehicle for American equality. Through strong management of your subject specialization, and content knowledge, methodology, and creative pedagogical technique, you will become a successful professional in the field. Elementary Education explores the use of technology in the classroom of tomorrow.

Our faculty includes professional teachers and published researchers with years of service in education and experience in the field. Educational Preparation is the gateway for creating a community of life long learning for your students. You will be able to teach your students to participate in community service, support social justice and promote personal independence. You will become a caring teacher who builds effective learning relationships with students.

Elementary Education (M.S. in Ed.)

Degree Conferred: Master of Science in Education (M.S. in Ed.)

The Elementary Education program affords students the opportunity to receive a Master of Science Degree in Education. The program does not require students to participate in EDU 577 to receive the degree; however, it is a requirement for New York State Teacher Certification.

Institutions shall publish information about each of their teacher education programs that shall be made available to prospective and enrolled students. The information shall include but need not be limited to, as available, relevant statistics about the labor market and job availability for each certificate title for which a teacher education program is offered, including the source of the statistics and the period of time and geographic area to which the statistics refer.
Program of Study

The Elementary Education program provides a 36 credit course of study consisting of methodologies, educational philosophy, literacy, research and application. All students who desire to receive initial certification from the State of New York must participate in and successfully complete EDU 577 (student teaching component) to fulfill the academic requirement for certification in elementary education (grades 1-6). New York also requires that all students have from a regionally accredited college:

30 hour concentration in one of the liberal arts and sciences

6 credits each in English/language arts, social studies, math, and science o 6 credits in a language other than English Research Course

The central focus is in Action Research as preparation for addressing classroom concerns and leading to the culminating capstone project.

Core Courses

This program includes seven core courses, including three courses in literacy.

Capstone

Students are required to take a Capstone or Thesis Guidance course which assists graduates to create an action research project and integrates and summarizes their program.

*The student teaching block fulfills the necessary requirement for certification but does not fulfill credits toward the Master's Degree.

**Elementary Education Course Descriptions**

**EDU 500 The Core of Education**

This course provides study and application of methods and materials appropriate for the understanding and implementation of a variety of "generic" situations as they apply to the
various disciplines of teaching in the early childhood/childhood and middle childhood classrooms. New scholarship as well as classic philosophies will be implemented into the pragmatic aspects of the classroom as they apply to these various levels of learning.

**EDU 502 Education Methods of Teaching: Math, Science, Technology**

This course is designed to examine theories of learning and thinking as they interact with the elementary classroom disciplines of science, mathematics, and technology. A practical application of these theories will be explored and incorporated for the teaching of these disciplines in the early childhood, childhood and middle childhood classroom setting.

**EDU 503 Education Methods of Teaching: The Arts, English, Language Arts and Social Studies**

This course is designed to examine theories of learning and thinking as they interact with the elementary classroom disciplines of the arts, language arts and social studies. A practical application of these theories will be explored and incorporated for the teaching of the aforementioned in the early childhood, childhood, and middle childhood classroom.

**EDU 504 Early Field Experience/Seminar: Physical Education, Family/Consumer Sciences**

This course defines family/consumer sciences as well as physical education in light of daily living and societal expectations. It requires that the learner combine knowledge, attitudes, values, and skills through a complex interplay of mind, materials, and social interactions. Through seminar training, early field/classroom participation and the use of action research, students will reflect upon that which they have learned and transform their knowledge into active and meaningful learning experiences.

**EDU 505 Child Abuse Identification and Substance Awareness, Health Issues and School Violence**

This course provides New York State certification in the identification and reporting of child abuse and teaching the awareness of substance prevention, health issues and school violence. It provides the student with opportunities to review literature for discussion or presentation and debate issues.

**EDU 577 Student Teaching/Seminar: Career and Occupational Studies**
This course provides students with on-site experience. The student will be assigned two situations, one at each level of their certification: Childhood (primary/intermediate levels) or Middle Childhood (intermediate/ middle school levels). A professional portfolio and journal will be completed. Students will also, through seminars, become familiar with the New York State Learning Standards for Career Development and Occupational Studies.
Master’s of Science in Education: Literacy

This program provides you with the knowledge and skills needed to enable students’ to meet the literacy challenges of the 21st century. It provides for permanent/professional certification in the classroom and initial certification in literacy.

Graduates of the program will be leaders in literacy development. In the era of “No Child Left Behind”, literacy is crucial to academic achievement. Every educator needs to teach reading to meet our children’s needs.

This program empowers graduates to teach classroom literacy, serve as literacy consultants, and provide techniques in remediation based on research and current practices.

Early in the program students will identify a research problem in literacy. While taking courses students will refine their problem and implement research based solutions. With your literacy knowledge you and your children will reach your highest goals.

Literacy, Birth-Grade 6 (M.S. in Ed.)

Degree Conferred: Master of Science in Education (M.S. in Ed.)

This Literacy, Birth-Grade 6 program provides the academic requirements for initial certification in Literacy. It also provides the academic requirement for permanent certification for provisionally certified education professionals who have an undergraduate degree in the field of education. The goal of the program is to produce graduates who can effectively deliver literacy instruction.

Program of Study

The Literacy program provides a 36 credit course of study consisting of a research course, core courses, practicum, and a capstone project. Research Course The central focus is in Action Research as preparation for addressing classroom concerns and leading to the culminating capstone project.

Core Courses

Eight core courses introduce methods of education research in literacy, theory, and development.

Practicum

The practicum consists of two courses in clinical experience (early intervention/elementary level).
**Capstone**

Students are required to take a Capstone or Thesis Guidance course which assists graduates to create an action research project and integrates and summarizes their program.

Literacy Course Descriptions

**EDL 550 Developmental Literacy: Emergence to Fluency**

This course will explore the concept of a balanced reading program from the emergent reader to a fluent reader. The students will study the elements of balanced reading which include read alouds, shared reading, guided reading, independent reading, phonemic awareness, word recognition strategies, and comprehension strategies. Students will develop reading experiences for children based on the New York Language Arts Standards. After learning these strategies and developing materials the student will have an opportunity to engage children in literacy experiences.

**EDL 555 Language/Literacy Development for the Young Child**

Students will explore research on current understandings of language development and how young children learn literacy. Infant and toddler pre-reading skills will be studied. Classroom/instructional implications of an emergent literacy paradigm are outlined and studied as well as applied in designing projects and presentations. Personal learning styles, family involvement and cultural contexts are considered as influences on literacy development of the young child.

**EDL 560 Literature for Children**

This course explores the role of children’s literature in the elementary literacy program. Students will explore the various genre of literature both in the areas of fiction and nonfiction, narrative and expository. Students will read and develop activities using various types of trade books, to assist student in meeting the New York State English Language Arts Standards.

**EDL 565 Content Area Literacy/Elementary**

Students will explore methods and strategies for teaching and improving content area literacy. Using the New York State English Language Arts Standards, students will have an opportunity to develop materials that can be used to enable them to use various strategies for developing
reading, writing, listening, and speaking. The student will also demonstrate the ability to design materials to enhance vocabulary, comprehension, and study skills in the content areas.

**EDL 575 Literacy Development for English Language Learners**

Students will explore various concepts such as second language development and literacy development for English language learner in the classroom. Students will focus on specific instructional strategies that promote language and literacy development.

**EDL 610 Teacher/Leader in Literacy**

Students will explore the characteristics of leadership through reflective study. They will examine the role of the teacher/leader in the area of professional development for his/her own practice as well as other professionals in his/her educational setting. Through the development of in-service workshops, students will further demonstrate the ability to communicate to various groups, including parents, caregivers, and school personnel, relevant information regarding literacy as it affects curriculum and assessment.

**EDL 650 Assessment and Evaluation of Literacy**

This course is designed to investigate current practices and procedures in the evaluation of New York State English Language Arts Standards (reading, writing, listening, and speaking). The course will include instruction in the administration and analysis of running records, assessment of listening and speaking, concepts of print, word recognition, spelling development, phonemic awareness, comprehension, writing development, and modes of responding to literature. Students will also investigate the role of standardized test and testing programs in the assessment of reading and the other language arts areas.

**EDL 660 Early Intervention Strategies**

In this course the students will investigate the history, philosophy and research basis of early intervention reading programs. Students will demonstrate an understanding of the pedagogy of early intervention programs, the assessment strategies for instructing children who exhibit reading difficulties.

**EDL 670 Early Intervention Practicum**

In this course the students will have an opportunity to apply their knowledge of the history of philosophy and pedagogy of early intervention reading programs. A review of the research on early intervention and specific programs will provide a framework for instructional practices. Students will have an opportunity to apply their knowledge of an early intervention format and instructional strategies with an individual child in a lab practicum.
EDL 675 Elementary Reading Practicum

The students will demonstrate the ability to assess children at the elementary level. By using these assessments, literacy instruction will be provided. During the seminars, cases will be discussed in light of appropriate materials and strategies. Through their research and teaching, the students will experience the importance of networking with other school professionals.
Master's of Science in Education: Special Education

The Medaille Special Education graduate program will consistently emphasize theory to practice. This Degree is specifically designed for individuals who currently hold or are working towards provisional or initial New York State certification in childhood or middle childhood education. The Medaille program also allows licensed, graduate level teachers to cross certify in special education. Graduates of the Medaille program will understand and be prepared to focus on the unique academic, cognitive, social, and emotional needs of students receiving special education services. Simultaneously, our graduates will help diverse learners to succeed in general education settings. Collaboration with colleagues and families will be emphasized and combined with enhancing the overall knowledge and individual skills of the Special Educator. Students in the Special Education graduate program at Medaille College will, at all times, be treated as professionals whose opinion, knowledge, and experiences count.

Special Education (M.S.Ed.)

Degree Conferred: Master of Science in Education (M.S.Ed.)

The Purpose of the Program

To provide the academic training required for provisionally certified educators (1 - 6; 5 - 9) to qualify for professional certification in childhood or middle childhood special education. Students who enter the program with a baccalaureate degree will earn a Master of Science degree in Education. Students who already have a Masters degree and certification in childhood or middle childhood general education can enter the program towards earning a cross certification in Special Education.

The Goal of the Program

To produce Special Education professionals who can effectively teach students with a wide range of special needs in both inclusive and special education settings. Graduates will be able to effectively modify instruction, curriculum, and materials for those learners while working collaboratively with other educators, professionals, parents, and the community.

Times

This program is scheduled to be completed in 15 months. It is offered on the college’s 7-1-7 schedule with courses scheduled in Fall, Spring, and Summer semesters. Each semester will include one full semester (15 week) course and one course during each seven week module for a
total of nine credits. Degree students will progress through the program as a single cohort taking a pre-identified sequence of courses each semester. Non-degree students seeking cross certification in special education will meet individually with the Program Director to plan their respective programs. Cross certification will include four specifically designated courses taken over a single, regular school year based on the above identified 7-1-7 course schedule.

Special Education Course Offerings

The following sequence represents the order courses will be offered in the Special Education Masters program at Medaille College starting September, 2006. Exceptions and/or changes may be made based on previous courses taken, enrollment status, or other changes in program expectations. Students should contact the Program Director for more information. Individual courses will include field experience components.

CORE COURSES

FALL TERM
ESP 600 Foundations of Special Education 3 credits
ECI 510 Research in Education 3 credits
ESP 601 Learning Disabilities: Theory & Practice 3 credits

SPRING TERM
ESP 604 Educating Students with Mild to Moderate Disabilities 3 credits
ESP 606 Assistive Technology in Special Education 3 credits
ESP 602 Educating Students with Emotional & Behavioral Disabilities 3 credits

SUMMER TERM
ESP 608 Assessment of Students with Disabilities at the 3 credits
Childhood & Middle Childhood Levels
ESP 605 Educating Students with Severe & Multiple Disabilities 3 credits
ESP 603 Identification, Assessment, & Treatment Models 3 credits
for At-Risk Readers

FALL TERM
ESP 607 Professional & Family Collaboration in Schools 3 credits
ECI 695 Seminar: Teacher as Researcher

ESP 610 Integrative Practicum Seminars: Childhood 1 credits
ESP 677 Student Teaching in Special Education: Childhood 3 credits
OR
ESP 611 Integrative Practicum Seminar: Middle Childhood 1 credits
ESP 678 Student Teaching in Special Education: Middle Childhood 3 credits
TOTAL 37 credits

CROSS CERTIFICATION CORE COURSES
ESP 600 Foundations of Special Education 3 credits
ESP 602 Educating Students with Emotional & Behavioral Disabilities 3 credits
ESP 604 Educating Students with Mild to Moderate Disabilities 3 credits
ESP 608 Assessment of Students with Disabilities at the Childhood & Middle Childhood Levels 3 credits
TOTAL 12 credits

For more information contact Lou Sandler, Ph.D., Special Education Program Director (lsandler@medaille.edu), (716) 880-2561.

Special Education Course Descriptions

ESP 600 Foundations of Special Education

This course offers an examination of the historical, social, and legal foundations of special education. Emphasis will be placed on issues, trends, and legislation which affect the provision of services in school, home, and community settings with a focus on inclusion of individuals with disabilities in home and school settings. An overview of the characteristics and instructional needs of individuals with disabilities will be provided. The impact of diversity on services to persons with special needs in the school will also be addressed.

ESP 601 Learning Disabilities: Theory & Practice

This course will familiarize prospective special educators with theory and current issues as they relate to the definition, etiology, assessment, eligibility, service delivery, characteristics, and individual needs of students with learning disabilities. A repertoire of teaching strategies to include the use of differentiated instruction will be developed in academic areas as language arts, social studies, math, and science. Issues related to the impact of culture, family, values, individual resources, and, too often, the lowered expectations of schools on educational outcomes for individuals with learning disabilities will also be examined. This course will also consider assistive technology and classroom assessment practices relevant to students with learning disabilities.

ESP 602 Strategies for Working with Students with Emotional and Behavioral Disabilities

This course is intended to help teachers understand the assessment of and intervention for students with emotional and behavioral disorders with an emphasis on elementary and middle school settings. Theoretical and practical applications of behavioral analysis will be included with stress placed on the prevention of behavior problems while supporting the development of independence and positive social interaction skills. This course will also focus on identifying, recording, evaluating, and effecting positive change in the social and academic behaviors of
students with special needs in elementary and middle schools through the process of behaviorally-based instruction, functional behavioral assessments, and the development of behavior support plans. The impact of culture and individual values on the assessment, perception, and response to students with emotional and behavioral disorders and their families will also be carefully considered.

**ESP 603 Identification, Assessment and Treatment Models for At-Risk Readers**

This course explores the connections between special education professionals and the most recent research in the field of reading education by focusing on the atypical development and educational needs of students who experience difficulties in acquiring the literary skills of listening, speaking, reading and writing. Best practices for teaching at-risk readers and those who have demonstrated significant reading delays will be explored. Topics will include, but not be limited to, reading assessment, best-practices instructional models for at-risk readers at the elementary and middle school levels, and a comparison of the more constructivist models of reading instruction with the models of systematic, sequential instruction as proposed by National Council for Accreditation of Teacher Education and the Council for Exceptional Children. The use of assistive technology in the inclusive classroom to benefit at risk readers will also be considered.

**ESP 604 Educating Students with Mild to Moderate Disabilities**

Provides the necessary knowledge and skills to select, adapt, and sequence instructional methods and materials for a range of students with higher incidence developmental disabilities. The development of differentiated instructional methodologies along with group instructional procedures will be examined. Emphasis will also be placed on the integration of general education and special education methodologies along with the development of Learning Communities, instructional differentiation and curricular adaptation, access to the general curriculum, functional skill objectives, and community-based instruction. Consideration will be given to issues relevant to the student’s cultural and social background in the identification of disability, developmental delay, and the development of individual educational objectives. IEP development and relevant legal and service mandates as per IDEA and ADA will also be examined.

**ESP 605 Educating Students with Severe and Multiple Disabilities**

This course examines the characteristics of learners with severe or multiple disabilities along with related curriculum development and methods of instruction to include the use of assistive technology and alternative assessment practices. It also examines the issues, problems, and trends affecting the development and implementation of community-based educational,
recreational, work and living options, and supports. Sample topics include identification and eligibility, least restrictive environment and inclusion, community-based instruction, person-centered planning, family involvement, medical concerns as relevant to the classroom, advocacy, and teacher roles and responsibilities. The unique perceptions, educational, and social needs of families of children with severe and multiple disabilities will also be examined with sensitivity to culture and values.

**ESP 606 Assistive Technology for Special Needs Learners**

This class is designed to help special educators develop an awareness of applications for, and the utilization of, assistive technology in the inclusive classroom to include low, middle, and high tech applications. Assessment models to establish student need for assistive technology will be addressed along with features of computer based instruction. The use of assistive technology to allow students with a wide range of learning and other special needs access to computers and computer based instruction, least restrictive environments, and access to the general curriculum will be considered. The impact of diversity and culture on technology along with the legal mandates which drive the availability of assistive technology in schools will also be examined.

**ESP 607 Professional, Family & Community Collaboration in Schools and schooling**

This course will develop a comprehensive set of strategies and methods for collaborating with and involving general and special education teachers and other professionals as well as parents and community in working partnerships for the benefit of students with disabilities. School relationships with families of children with special needs and potential barriers to these contacts to include cultural and individual perceptions will be considered along with legal rights of families whose children receiving special education services. A strong emphasis will be placed on a family-centered approach to education with a goal that teachers will become better able to analyze their own personal values, beliefs, and cultural biases in order to offer better support for families.

**ESP 608 Assessments of Students with Disabilities at the Childhood and Middle Childhood Level**

The purpose of this course is to provide knowledge and develop skills in assessment and related program planning for childhood and middle childhood students (grades 1-9) with special needs. The class will emphasize an individualized, family-centered, and culturally competent approach to assessment. A study of assessment procedures used in the referral, identification, and instructional phases of program planning for students with special needs in childhood and middle childhood education will be emphasized. There will be an additional focus on those specific educational assessment methods and procedures used in decision making and program planning for students with disabilities to include those with culturally or linguistically diverse backgrounds.
ESP 610 Integrative Practicum Seminars: Childhood

This course engages prospective special educators in a seminar process to share, analyze, and extend their professional experiences to include collaboration with professionals and parents and the development of co-teaching relationships in the school setting with attention to the elementary classroom. Support will also be given towards the development of individual systems of self reflection and evaluation while working to refine teaching experiences and skills through group analysis to improve instruction and guide professional growth.

ESP 611 Integrative Practicum Seminars: Middle Childhood

This course engages prospective special educators in a seminar process to share, analyze, and extend their professional experiences to include collaboration with professionals and parents and the development of co-teaching relationships in the school setting with attention to the middle school classroom. Support will also be given towards the development of individual systems of self reflection and evaluation while working to refine teaching experiences and skills through group analysis to improve instruction and guide professional growth.

ESP 677 Student Teaching in Special Education: Childhood

This course is designed to provide students with experience as Special Educators in the elementary classroom. Prospective special educators will have the opportunity to work closely with practitioners such as Special Education teachers, coordinators and supervisors, and related service professionals. Through involvement in practical field experiences, the prospective special educator will acquire a realistic perspective of special education and develop the knowledge, skills, and aptitudes needed for entry as Special Education teachers in elementary classrooms.

ESP 678 Students Teaching in Special Education: Middle Childhood

This course is designed to provide students with experience as Special Educators in the middle school classroom. Prospective teachers will have the opportunity to work closely with practitioners such as Special Education teachers, coordinators and supervisors, and related service professionals. Through involvement in practical field experiences, the prospective special educator will acquire a realistic perspective of special education and develop the knowledge, skills, and aptitudes needed for entry as Special Education teachers in middle school classrooms.

ECI 695 Seminar: Teacher as Researcher
This project requires students to participate in an educational institution and to identify, understand, conceptualize, and respond to relevant professional issues. Students will recognize an educational problem or concern within the field of education and will identify an appropriate research model using an action oriented approach in order to reflect upon, understand, develop, propose, and examine possible solutions to that problem. The problem/concern will be considered early in the graduate program and carried to its required completion in this culminating activity via the writing and presentation of an original Masters Capstone project using knowledge gained within the required/selected courses taken during the student’s graduate studies.
Master of Arts in Mental Health Counseling

Professionalism

The Psychology and Mental Health Counseling Programs expect students to maintain their integrity and professionalism as students and prospective counselors. Students are expected to be psychologically sound, interpersonally effective, and able to engage with peers, faculty, colleagues, consumers, and professionals in a healthy and responsible manner. Students are expected to give and receive feedback as a part of their training and growth.

Students are not only expected to achieve academically at the graduate level, but also to manage themselves throughout the program as ethical professionals-in-training. Issues of Ethical Misconduct, Behavioral Misconduct, Impairment, and Incompetence will be dealt with swiftly and fairly as they might arise.

Introduction

The Master of Art (M.A.) program in Mental Health Counseling is a 48-credit course of study in which students are required to take a fixed sequence of courses in counseling theory and practice, group dynamics, psychopathology, appraisal and assessment, foundations of mental health counseling, social and cultural foundations, career counseling, family counseling and clinical instruction. Students are also required to participate in a two-hour child abuse workshop. These are complemented by courses in developmental psychology, research and evaluation, and professional ethics. Students must successfully complete a one-year; 9-credit supervised internship and pass a comprehensive examination in order to be awarded the M.A. degree. The comprehensive examination will assess students' abilities to integrate and synthesize theoretical and practical knowledge into an effective, professional method of and approach to counseling.

The Program is designed to fulfill the goals of: providing students with a thorough grounding in advanced principles of mental health counseling at a graduate level, and providing students with an understanding of the tools of counseling that is suitable for building careers in private and public mental health agencies.

The objectives of the Program include: providing students with advanced research-based knowledge in the area of group and individual counseling, counseling techniques, and testing and diagnosis; providing students with a full understanding of the professional and ethical issues relevant to mental health counseling and consultation; and provide students with detailed knowledge of multicultural and career issues in counseling.

Admissions Requirements
Medaille College has a rolling admissions policy and students may be admitted for the fall, spring, or summer semesters. Applicants are encouraged to apply in accordance with the following schedule:

- **Fall Semester Deadline**: August 15
- **Spring Semester Deadline**: January 1
- **Summer Semester Deadline**: June 1

Successful admissions candidates will generally have met the following selection criteria:

- **An undergraduate GPA of at least 2.7**: The Graduate Admissions Committee reviews the undergraduate record, noting the total GPA, the area of concentration, and the trend of grades. A minimum 2.7 GPA is recommended, although all applications will be reviewed. Students under 2.7 will require convincing evidence of intellectual ability, communications skills, and initiative.

- **A degree from a regionally accredited educational institution**.

- **Two applicant reference forms**: The committee reviews references of applicants as they contribute to an understanding of the applicant's academic ability, leadership skills, and aptitude for graduate study. All applicants are required to have two forms submitted for review.

- **Satisfactory GRE score**: A good balance of scores in verbal and quantitative areas is needed. No minimum total GRE is required, but the average entering student is above the 50th percentile. Students may be accepted provisionally pending receipt of exam scores or successful completion of the first 12 credits of course work.

**Provisional Admission**
Students may be admitted provisionally to the M.A. program pending receipt of credentials such as original transcripts or scores. Students admitted as provisional students may take no more than 12 semester hours of credit (four courses) prior to formal admission.

**Convenient Weekend Format**
Medaille's M.A. is offered as a fixed sequence of 13 8-week courses, taken one course at a time, plus one Supervised Internship. Each 8-week course will include 38 in-class hours (split between the fourth and eighth weekends of the course) and appropriate amounts of independent study. Students will proceed thorough the Program as a cohort. This delivery method requires students to take two classes per semester, and six classes per calendar year. Students will be part-time and will not qualify for TAP.

**Clinical Internship**
Students are required to complete 100 Pre-Practicum hours (45 of which must be contact hours) while taking MHC 670, Clinical Instruction. Subsequent to that experience students are required to complete a minimum of 600 hours of Clinical Internship (240 of which must be contact hours) while completing 9 credit hours of MHC 677, Supervised Clinical Internship.
Pre-Practicum and Internship placements will be chosen as a collaborated effort between students and the Clinical Coordinator of the Program. Each placement is considered on an individual basis and must first meet the approval of the Clinical Coordinator.

**Rescheduling Classes in the Event of Inclement Weather**

In the event that the College cancels one day out of the weekend schedule due to inclement weather or other unforeseen circumstances, the Instructor will contact the cohort to inform them of how missed work/time will be made up. If, however, two or more days out of the weekend schedule are cancelled by the College, the Instructor and cohort should anticipate that cancelled class days will automatically be rescheduled for the following weekend.

Added: November 13, 2005

**What is a Mental Health Counselor?**

The American Mental Health Counselors Association (AMHCA) defines mental health counseling as *the provision of professional counseling services involving the application of principles of psychotherapy, human development, learning theory, group dynamics, and the etiology of mental illnesses and dysfunctional behavior to individuals, couples, families, and groups for the purposes of treating psychopathology and promoting optimal mental health.* Mental Health Counseling is a distinct profession with national standards for education and clinical practice. The American Mental Health Counselors Association (AMHCA) is the primary organization representing Mental Health Counselors. A licensed Mental Health Counselor has met of exceeded the following professional standards: a master’s degree; completed a minimum of two years post-master’s clinical work (3000 hours) under the supervision of a licensed/certified counselor (or other licensed mental health professional); and, passed a state or national licensure examination.

**What is the difference between a Mental Health Counselor and a Social Worker or Psychologist?**

Mental Health Counselors- along with Psychologists, Psychiatrists, Social Workers, and Psychiatric Nurses- are one of the five CORE mental health providers recognized by the National Institute of Health (NIH). In general, psychologists are all doctoral level practitioners with a Ph.D./Ed.D./Psy.D. in Clinical or Counseling Psychology. Psychologists receive extensive training in assessment and testing. Social Workers are mostly a masters level profession receive broad training in a variety of social services roles, including counseling, but also case management, social welfare and others. Mental Health Counselors, like Social Workers are primarily a master’s level profession. Unlike the above mental health professions, Mental Health Counselors are primarily trained to practice counseling and psychotherapy (though MHC’s will also receive training in testing and assessment). Naturally, all three of these mental health professions provide many of the same services, often resulting in public confusion regarding respective roles. Because professional counselors and social workers are licensed in almost every state, this blurring of professional boundaries is likely to continue. Counselors and Social
Workers may also earn doctorate degrees, though most professionals in these two professions have master’s degrees.

**In what settings do Mental Health Counselors work?**

Mental Health Counselors work in:

* County mental health clinics
* Drug and alcohol programs
* Hospitals
* Psychiatric centers
* College and University counseling centers
* Pastoral counseling centers
* Crisis services
* Hospice and Palliative care services
* Employee Assistance Programs (EAPs)

*and many other settings as well*

**Mental Health Counseling Professional Associations**

**American Counseling Association (ACA)**

The American Counseling Association is the flagship organization and the largest counseling organization in the world with some 57,000 members and 18 divisional affiliate organizations. ACA has written a comprehensive Code of Ethics and Standards of Practice that all professional counselors are expected to read and understand. There are currently 17 Divisions comprising ACA. ACA was founded in 1952. You can find more information on ACA at www.counseling.org.

**American Mental Health Counselors Association (AMHCA)**

The American Mental Health Counselors Association was founded in 1978 and is the ACA Division representing the profession of Mental Health Counselors. The AMHCA also has a separate Code of Ethics from ACA, though the two Codes are consistent on major issues. You may find more information about AMHCA at www.counseling.org.

**The Council for the Accreditation of Counseling and Related Educational Programs (CACREP)**

CACREP is the accreditation body for graduate counseling programs affiliated with the American Counseling Association (ACA). Founded in 1981, CACREP sets standards for accreditation of graduate mental health counseling programs, school counseling programs, geriatric counseling programs and many others. CACREP’s web-site may be accessed at www.cacrep.org.

**The National Board for Certified Counselors, Inc. (NBCC)**
The National Board for Certified Counselors is the national credentialing board for professional counselors. Mental Health Counselors seeking national certification may take the National Counselor Examination (NCE) in order to become a Certified Clinical Mental Health Counselor (CCMHC). While national certification differs from state licensure, most states use the NCE as their counselor licensure examination. (Counselor licensure is explained below) NBCC’s web site is www.nbcc.org.

**Web sites for additional information on Mental Health Counselors:**

American Counseling Association (ACA) www.counseling.org
American Mental Health Counselors Association (AMHCA) www.counseling.org
National Board for Certified Counselors, Inc. NBCC) www.nbcc.org
New York Counseling Association (NYCA) www.nyca.org
New York Mental Health Counselors Association (NYMHCA) www.nymhca.org

**Written Comprehensive Examination**

**Purpose**

The comprehensive examination serves the following functions, the primary one being the measure of academic attainment:

1. Academic Excellence. The primary function of the Master’s comprehensive examination is to ensure that students demonstrate competence in the field of study. The Master’s examination not only assesses student achievement, but it also motivates the student to perform competently and rewards this performance.

2. Integrating Function. Another function of the examination is to provide students with an opportunity to review, synthesize, and integrate the material that has been learned in coursework, readings, research experience, applied settings, and informal interactions with the faculty and other professionals.

3. Diagnostic Function. The comprehensive examination serves this function in two ways: (a) students and their advisors ascertain their strengths and weaknesses in the conceptual knowledge base required by the department. (This is particularly true for the Individualized component of the examination described below); and (b) Mental Health faculty, by reviewing the collective quality of the students' responses in different areas, can determine how the curriculum may be improved.

The comprehensive examination consists of two components: (a) The Core/Departmental component, and (b) The Individualized component.

1. The Core/Departmental component is administered at the department level under the auspices of the Graduate Committee. It consists of a total of 3 hours of written examination consisting of a three-hour written examination requiring the student to demonstrate a comprehensive grasp of the literature in any one of three core content areas in Mental Health (i.e., human growth and
development, social and cultural counseling, counseling theory, group counseling, career
development, ethics, clinical methods and/or assessment of individuals and groups). The
question within one of these core areas will be written and evaluated by a team of three faculty.
These faculty examination teams are designated on a yearly basis by the Graduate Committee.

2. The Individual component of the Comprehensive Examination encourages and evaluates the
student's proficiency and development of professional skills within his or her own area of
interest. The specific nature and content of this component of the Comprehensive Exam is
determined by the Program Committee, which consists of the student’s advisor and two
additional members of the Mental Health faculty.

The Core/Departmental component of the exam will be administered at the Department level
twice each year. Extenuating circumstances, such as personal health or residency at great
distance from Medaille College, may warrant special arrangements by the advisor and be
subsequently approved by the Graduate Committee.

Reading lists for the core areas in Mental Health (human growth and development, social and
cultural counseling, counseling theory, group counseling, career development, ethics, clinical
methods and/or assessment of individuals and groups. Exams are available from the Graduate
School (see advisor for details). To prepare for the examination, the student is encouraged to
review the material on these reading lists beginning at least one semester prior to the semester in
which he or she plans to take the exam. It is also recommended that the student be familiar with
material that has been covered in classes, current research in books and journals in the field, and
participate in study groups that may be organized by fellow students prior to the exam. Questions
asked on prior exams can be obtained from the Graduate School.

**Evaluation of Master’s Comprehensive Exams**

- Written Exam

1. Core/Departmental Component

Faculty evaluate examination responses to the core/departmental component without knowledge
of the student's identity. To preserve this anonymity, students will be assigned an examinee
numeral, which will be used to identify their examination answers.

The faculty teams appointed by the Graduate Committee to write the comprehensive questions
pertaining to each of the three core areas is also responsible for evaluating student responses to
their respective core areas. For example, the faculty team responsible for writing the question(s)
concerning mental health assessment and treatment planning would evaluate student responses in
that area. The student's responses to the Core/Departmental component are evaluated as follows:

a). The student's response to the examination is reviewed by two faculty members from the team
who prepared the question(s). Performance is graded as "High Pass", "Pass", or "Fail".
b). When the student’s performance is graded "Fail" by one reader, then one additional faculty member from the team who prepared the question(s) for the core area being examined will independently read and score the student's response.

c). A student who receives a grade of "Fail" from two readers fails the comprehensive examination. Likewise, a student who receives a grade of "High Pass" from two readers receives a grade of "High Pass" on the comprehensive examination.

2. Individual Component

After receiving notification that a student has passed the Core/Departmental Component of the Comprehensive Exams, he or she should obtain approval of the Individual Component of the Exam. A brief memo from each of the members of this committee can be submitted as documentation that this Component has been approved.

**Student Feedback**

After all examination results have been summarized, the Graduate Committee Chair conveys the results to each student by letter. Students usually receive the letter about four to six weeks after the examination date. Should students fail either component of the examination, they MUST confer with their advisor about options available to them.

**Failure of the Master’s Comprehensive Examination:** Students who fail either the Core-Departmental or the Individualized component may re-take that component (or both) once. Students who fail one or both components a second time are dropped from their degree program.

**Other Requirements and Procedures**

**Time Limits**

All requirements for the degree of Master of Arts in Mental Health Counseling must be completed within five years of the date of admission to the Department of Psychology Graduate Program. All graduate students must be registered for a minimum of six credit hours during each fall, spring and summer semester. Graduate students in good academic standing who cannot maintain continuous registration should apply for a leave of absence by the beginning of the semester in which the leave is to begin.

**Transfer of Coursework Taken at Other Institutions or as an Advanced Special Student**

A maximum of six (6) credit hours of graduate level coursework earned from regionally accredited institutions prior to or after matriculation at Medaille College Graduate School may be applied towards a master’s degree in Mental Health. All transfer credits must meet the following criteria:

a) Courses must have been offered at the graduate level.

b) Courses may not have been used to meet degree requirements for previously earned graduate
degrees.
c) Courses must have been completed within the last five years of matriculation in the Department.
d) Courses must receive approval from the student's advisor, the Department Chair, and the Dean of the Graduate School.
e) A grade of "B" or above must have been earned in the requested transfer courses.
* The student may be subject to final examination in all coursework transferred into the Master's degree in Mental Health.
** No credit is granted for correspondence courses or for "credit-by-examination" courses.

Waiver of a Course Requirement

In certain circumstances, a waiver of a course requirement may be requested based on coursework taken at Medaille College or at another institution. To petition for a course waiver, the student must submit a formal written letter requesting a Waiver of a Course Requirement. This letter must be approved by the student’s advisor, the department chair, and the dean of the graduate school.

Academic Review/Probation/Dismissal

Any graduate student who receives a grade of F in any course required for completion of the M.A. degree or who indicates a lack of ability as determined by the program faculty, will receive an immediate academic review by the graduate program faculty. Upon completion of the academic review, the graduate program council may place the student on academic probation. Such notice will be made in writing by the department chairperson or designee prior to the end of the drop/add period of the next semester and will indicate the terms of the probation and its removal. Any student placed on academic probation is limited to three (3) credits per semester while on probation and is required to sign and adhere to a prescribed probationary contract. Any graduate student not meeting the written terms of their academic probation may be academically dismissed from the College.

Students will not be allowed to begin or continue internship placements if they are placed on academic probation. Further, students placed on probation or suspension for violations of the Student Handbook will not be allowed to begin or continue internship placements and depending on the severity of the offense, a student may be dismissed from the College.

Procedure for Change of Advisor

Requests for change of advisor must be made in writing and approved by the Dean of the School of Adult and Graduate Education.

Concerns or Questions about a Course or Program Requirement

In the event that a student has a concern or question about a course, the instructor of the course should be consulted before bringing concerns to the Department. If the situation is not resolved
in consultation with the instructor, concerns and/or questions should be brought to the attention of the advisor and the Department Chair.

**Grade Point Average Requirements**

The Graduate School at Medaille College requires that all graduate students maintain a grade point average of 3.0 or above. A student whose grade point average falls below 3.0 after completion of 9 credits will be placed on academic probation for the following semester. A student whose grade point average falls below 3.0 for a second and successive semester may be allowed (with the recommendation of the Department and the consent of the Graduate School) a third semester in which to raise his or her grade point average to 3.0 or above. A student whose grade point average falls below 3.0 after three successive semesters will be required to withdraw from the College. A student whose cumulative grade point average falls below 3.0 will not be recommended for graduation.

Likewise, any graduate student who receives a grade of F in any course required for completion of the M.A. degree or who indicates a lack of ability as determined by the program faculty, will receive an immediate academic review by the graduate program faculty. Upon completion of the academic review, the graduate program faculty may place the student on academic probation. Such notice will be made in writing by the department chairperson or designee prior to the end of the drop/add period of the next semester and will indicate the terms of the probation and its removal. Any student placed on academic probation is limited to three (3) credits per semester while on probation and is required to sign and adhere to a prescribed probationary contract. Any graduate student not meeting the written terms of their academic probation may be academically dismissed from the College.

* A student earning less than B- in any course is required to repeat the course. A student may repeat any course in an effort to earn a higher grade. The later grade will be used in computing the grade point average.

**Academic Integrity**

Medaille’s faculty and administration expect all students to complete their academic assignments with honesty and integrity. Students who engage in any form of academic dishonesty (e.g., plagiarism, cheating on a test, forging a signature or an entire college document) will be dealt with severely, with penalties ranging from an F on a given assignment to failing a course or even academic suspension or dismissal from the program. **It is important to note that the Graduate School at Medaille College interprets the submission of the same paper, or substantially the same paper, to more than one instructor to be a violation of this code. Students found guilty of such offenses risk expulsion from the College.** Students should consult their Student Handbook for full details on the college’s policy and procedures for handling formal charges of academic dishonesty.

**Mental Health Counseling Courses**
MHC 600 COUNSELING THEORY AND PRACTICE

This course covers the basic theory, principles and techniques of counseling and its application to professional counseling settings. It also considers various theories of counseling and issues in the practice of professional counseling. Three credit hours.

MHC 605 GROUP DYNAMICS

This course is designed to provide students with an understanding of group development, process and dynamics. Students will learn theoretical and practical concepts related to the practice of group psychotherapy. Three credit hours.

MHC 620 PSYCHOPATHOLOGIES

Humans have been trying to understand the bases of psychopathologies for thousands of years. This course provides students with the most current information regarding the etiologies, and subsequent treatments, of the most prevalent mental illnesses in our society. Three credit hours.

MHC 622 ASSESSMENT AND APPRAISAL

This course provides students with a comprehensive overview of the major principles of assessment, assessment instruments and assessment skills relevant for mental health counselors. Emphasis will be placed on the statistical properties, use and interpretation of assessment and appraisal techniques commonly used in the field. Three credit hours.

MHC 625 PERSONALITY PSYCHOLOGY

This course surveys the descriptive and causal aspects of individual differences in personality. Students will examine theories and explanations of the development of normal and abnormal personalities. Major models of personality theory include biological, cognitive social, behavioral, and psychodynamic models. Three credit hours.

MHC 630 PROFESSIONAL AND ETHICAL ISSUES

This course will focus on the ethical principles and professional standards of counseling practice, and survey the ethical and legal issues facing the professional counselor in our society. Students will review professional goals, objectives, roles and functions. This course also examines ethical and legal standards, risk management, professional credentialing and standards for professional counselors. Three credit hours.

MHC 631 DEVELOPMENTAL PSYCHOLOGY
This course introduces students to the major theories that have shaped psychologists’ understanding of human growth and development from conception, childhood and adolescence, to early, middle and late adulthood. Aspects of development discussed include biosocial, cognitive and psychosocial changes. Emphasis is placed on developmental problems and diagnosis of abnormal development. Three credit hours.

**MHC 640 SOCIAL AND CULTURAL FOUNDATIONS**

This course is designed to provide students with a general framework for understanding issues related to mental health services with people from diverse populations, different cultures and lifestyles. The influence of socio-identities (e.g. race, ethnicity, religion, gender, socioeconomic status, sexual orientation) on individuals’ functioning, concerns, and the counseling process will be explored. Three credit hours.

**MHC 649 CHILD ABUSE WORKSHOP Non-credit (2-hour workshop)**

This workshop prepares students who are required by law to report suspected child abuse or maltreatment to the New York State Central Register. This workshop is designed to help students understand the risk factors associated with child abuse, as well as, to recognize child emotional, physical and sexual abuse of children. Students will learn their roles and responsibilities as mandated child abuse reporters.

**MHC 650 FOUNDATIONS OF MENTAL HEALTH COUNSELING AND CONSULTATION**

This course offers students an overview of the field of mental health counseling. Students will begin to develop skills requisite counselors, including listening, empathy training and basic interviewing. Issues regarding the development of the therapeutic relationship, cultural diversity and mental status assessment will also be covered. Three credit hours.

**MHC 652 RESEARCH AND EVALUATION**

This course surveys the major methodologies for conducting psychological research, and focuses on research report development, publication of psychological data, and ethical considerations in conducting research. Students will also be introduced to the statistics necessary for describing and analyzing psychological data. Three credit hours.

**MHC 660 CAREER COUNSELING**

This course is designed to provide students with the theoretical frameworks and basic counseling skills necessary for the career counseling process and for planning programs for educational and career counseling. The course includes a review of theories of career development, individual
and programmed techniques for diagnosis, assessment, decision-making and career search/advancement. Attention is given to assessment of how people make career choices, which are suitable to the individual and are viable in society. Emphasis is on developing a broad view of career as life style and on practical application of theory and information in a professional counseling context. Three credit hours.

**MHC 670 CLINICAL INSTRUCTION**

This course focuses on the practical and personal side of counseling. The course provides students with the opportunity to learn about themselves personally and professionally, and accomplish the basic attitudes and techniques of counseling. The course includes class discussion, observation, practice of counseling skills and attitudes, role-plays of counseling, group and individual supervision, observation of a counseling case with supervision, and critical reflection on your experience in these learning and practice exercises. Three credit hours.

**MHC 677 SUPERVISED INTERNSHIP**

A one year supervised internship in a mental health/psychiatric agency provides the experiences for the student-intern to increase professional competence. Through the internship experience, the student is challenged to apply and integrate the knowledge, theories and concepts of counseling practice, and to build on previous life and work experience, as well as to develop new areas of professional competence. This process allows the student to bring together and to integrate for professional use cognitive learning, professional competence, values and ethics, life experiences, and activities which will enhance skill and critical analysis of counseling practice. 9 credit hours.

**MHC 680 FAMILY COUNSELING**

This course presents a survey of the leading theorists and concepts in the field of family therapy. Students will become better acquainted with this field of counseling and will acquire skills necessary to work with families. Three credit hours.
Master of Arts in Psychology

Professionalism

The Psychology and Mental Health Counseling Programs expect students to maintain their integrity and professionalism as students and prospective counselors. Students are expected to be psychologically sound, interpersonally effective, and able to engage with peers, faculty, colleagues, consumers, and professionals in a healthy and responsible manner. Students are expected to give and receive feedback as a part of their training and growth.

Students are not only expected to achieve academically at the graduate level, but also to manage themselves throughout the program as ethical professionals-in-training. Issues of Ethical Misconduct, Behavioral Misconduct, Impairment, and Incompetence will be dealt with swiftly and fairly as they might arise.

Introduction

This handbook describes the major milestones (see appendix A), program regulations and requirements that students will encounter as they complete the Master’s program in Psychology at Medaille College. Planning of all phases of the Master’s program should be done in consultation with your academic advisor. The academic advisor should not only help to provide guidance about academic matters, but should also serve as a mentor. Department faculty are committed to making your graduate work the most productive educational experience possible.

Policy statements described herein are subject to change. Students are advised to consult Department, College and Graduate School publications for detailed and up-to-date information. Copies of forms (or instructions) required to complete the procedures described in this Handbook may be obtained from either the Department or from the Graduate School at Medaille College. For further information, consult your academic advisor.

Philosophy of the Program

The program is designed to fulfill the goals of providing students with a thorough grounding in advanced principles of psychology at a graduate level, and providing students with an understanding of the tools of advanced psychology that is suitable for building careers in business, education, research, and government. The objectives include providing students with an opportunity to strengthen their credentials in order to improve their chances of gaining acceptance to a Ph.D. program in psychology; providing those students who wish to enter a Ph.D. program in psychology with a chance to explore advanced courses in several sub fields of psychology, learn more about psychology and focus their interests, and then apply for and gain entrance to a Ph.D. program in Psychology; providing students with advanced training in each of the core areas of study; and providing students with a command of the analytical tools necessary to successful careers in psychology.
Currently, some departmental faculty are engaged in a wide range of research projects investigating abnormal, cognitive, social, emotional, and biological development. Likewise, some departmental faculty have extensive applied experience in such areas as marriage and family therapy, and adolescent development. The psychology faculty are known at Medaille College for their research and professional development. The psychology faculty publish frequently, obtain research grants, and engage in many other scholarly activities. For example, the current graduate faculty have published articles in the following journals (to name a few): *Brain & Cognition, Brain Research, Brain Research Bulletin, Developmental Brain Research, Developmental Review, Ergonomics, Infant Behavior and Development, The Journal of Social Psychology, Personality and Individual Differences*, *Psychophysiology*. Both teaching and research are a major focus of the Department.

**Program Planning and Advisement**

Upon recommendation for admission, an advisor is assigned to each student by the Department based upon the student’s long term goals. The student should seek an appointment with the advisor as soon as possible after admission. Consultation with the advisor in program planning is essential. The entire course of study must constitute a unified, coherent program which is approved by the student's advisor and by the Graduate School. Additional courses may be required if the student is inadequately prepared for the required graduate courses.

**Required Coursework**

The Master of Art (M.A.) program in Psychology is a 36-credit course of study in which students are required to take core courses (18 credits) in behavioral neuroscience, clinical psychology, cognitive psychology, and social psychology. These are complemented by courses (6 credits) in research design and statistical methods. Students also choose three electives (9 credits) from the four core areas, and must also complete a thesis course (3 credits). A written thesis of potentially publishable quality is required to earn the M.A. degree.

Total Credits  36

The Master's Thesis

The Master of Arts with Thesis candidate must successfully complete a thesis. A thesis committee of three (3) faculty members guides and encourages the student in the design and execution of the research program and in the writing of the thesis. During the time the thesis is being completed, the student must register with the advisor or an assigned research director for a total of six (6) semester hours of thesis credit (PSY 798).
The thesis must be approved by an examination committee nominated by the advisor in consultation with the student. The committee must be established at least two months prior to the date on which the oral examination is scheduled. Master's thesis committees must consist of at least three members of the Psychology Graduate Faculty at Medaille College.

**Use of Human Subjects**

If human participants are involved in thesis research, the student must obtain approval from the Institutional Review Board at Medaille College. Application materials and instructions are available from your advisor, and students should consult with their advisor in preparing these materials. **Data may not be collected for the Master's thesis before human subjects approval has been granted.**

**The Oral Examination**

A final oral examination on the Master's thesis shall be held when the student has completed the thesis to the satisfaction of the student's advisor, provided all other requirements for the Master of Arts degree have been completed and a 3.0 grade point average has been maintained throughout the student's coursework. An oral examination committee with a minimum of three members of the Psychology faculty conducts the oral examination. The chairperson of the examination committee selects the time and place of the oral examination and is responsible for notifying the other members of the committee and the candidate. Members of the oral examination committee must be given a minimum of seven (7) business days to review the student's thesis prior to the oral examination. The duration of the oral examination is approximately one (1) hour.

The decision to accept the oral examination as satisfactory must be unanimous. Students may present themselves for oral examination only twice.

**Oral Examinations during the Summer**

Because faculty are frequently not available for oral examinations during the summer session, the following rules have been established:

1) The committee must be appointed by the Graduate School prior to the close of the spring semester;
2) The date for the exam must be scheduled with the committee prior to the close of the spring semester;
3) A copy of the dissertation must be presented to the committee prior to the close of the spring semester;
4) All committee members are scheduled to be on campus on the exam date or agree to return.

**Other Requirements and Procedures**
Time Limits

All requirements for the degree of Master of Arts must be completed within five years of the date of admission to the Department of Psychology Graduate Program. All graduate students must be registered for a minimum of six credit hours during each fall, spring and summer semester. Graduate students in good academic standing who cannot maintain continuous registration should apply for a leave of absence by the beginning of the semester in which the leave is to begin.

Registration Requirements*

All masters students are required to register every semester for at least one credit hour. When all other requirements have been completed except for the completion of the thesis and/or passing the oral examination, students are required to register for a minimum of 1 credit of PSY 797. Waivers of registration shall be granted only if the student is making satisfactory progress toward the degree and can complete the degree requirements within the required time limits. Interruption of registration cannot be used to justify a time extension. A request for a waiver of registration should be filed 10 days before the beginning of the semester or year for which the waiver is sought. Tuition waiver requests will be granted only when the student affirms in writing that he or she will not be using any College resources, including the time of faculty members, during the waiver period.

Transfer of Coursework Taken at Other Institutions or as an Advanced Special Student

A maximum of six (6) credit hours of graduate level coursework earned from regionally accredited institutions prior to or after matriculation at Medaille College Graduate School may be applied towards a masters degree in Psychology. All transfer credits must meet the following criteria:

a) Courses must have been offered at the graduate level.
b) Courses may not have been used to meet degree requirements for previously earned graduate degrees.
c) Courses must have been completed within the last five years of matriculation in the Department.
d) Courses must receive approval from the student's advisor, the Department Chair, and the Dean of the Graduate School.
e) A grade of "B" or above must have been earned in the requested transfer courses.

* The student may be subject to final examination in all coursework transferred into the Master's degree in Psychology.
** No credit is granted for correspondence courses or for "credit-by-examination" courses.

Waiver of a Course Requirement

In certain circumstances, a waiver of a course requirement may be requested based on coursework taken at Medaille College or at another institution. To petition for a course waiver,
the student must submit a formal written letter requesting a Waiver of a Course Requirement. This letter must be approved by the student’s advisor, the department chair, and the dean of the graduate school.

**Procedure for Change of Advisor**

Requests for change of advisor must be made in writing and approved by the Dean of the School of Adult and Graduate Education.

**Concerns or Questions about a Course or Program Requirement**

In the event that a student has a concern or question about a course, the instructor of the course should be consulted before bringing concerns to the Department. If the situation is not resolved in consultation with the instructor, concerns and/or questions should be brought to the attention of the advisor and the Department Chair.

**Grade Point Average Requirements**

The Graduate School at Medaille College requires that all graduate students maintain a grade point average of 3.0 or above. A student whose grade point average falls below 3.0 after completion of 9 credits will be placed on academic probation for the following semester. A student whose grade point average falls below 3.0 for a second and successive semester may be allowed (with the recommendation of the Department and the consent of the Graduate School) a third semester in which to raise his or her grade point average to 3.0 or above. A student whose grade point average falls below 3.0 after three successive semesters will be required to withdraw from the College. A student whose cumulative grade point average falls below 3.0 will not be recommended for graduation.

Likewise, any graduate student who receives a grade of F in any course required for completion of the M.A. degree or who indicates a lack of ability as determined by the program faculty, will receive an immediate academic review by the graduate program faculty. Upon completion of the academic review, the graduate program faculty may place the student on academic probation. Such notice will be made in writing by the department chairperson or designee prior to the end of the drop/add period of the next semester and will indicate the terms of the probation and its removal. Any student placed on academic probation is limited to three (3) credits per semester while on probation and is required to sign and adhere to a prescribed probationary contract. Any graduate student not meeting the written terms of their academic probation may be academically dismissed from the College.

* A student earning less than B- in any course is required to repeat the course. A student may repeat any course in an effort to earn a higher grade. The later grade will be used in computing the grade point average.

**Academic Integrity**
Medaille’s faculty and administration expect all students to complete their academic assignments with honesty and integrity. Students who engage in any form of academic dishonesty (e.g., plagiarism, cheating on a test, forging a signature or an entire college document) will be dealt with severely, with penalties ranging from an F on a given assignment to failing a course or even academic suspension or dismissal from the program. **It is important to note that the Graduate School at Medaille College interprets the submission of the same paper, or substantially the same paper, to more than one instructor to be a violation of this code. Students found guilty of such offenses risk expulsion from the College.** Students should consult their Student Handbook for full details on the college’s policy and procedures for handling formal charges of academic dishonesty.

**Psychology Courses**

**Fall**

**PSY 504 SOCIAL PSYCHOLOGY**

The single most important environmental factor influencing human attitudes and behaviors is the presence of other humans. Social psychologists strive to understand how individuals and groups affect these attitudes and behaviors. This course will focus on topics such as measurement and analysis of behaviors, attitude structure and function, the origins of social norms, attraction, altruism and antisocial behavior. 3 credit hours

**PSY 511 COGNITIVE PSYCHOLOGY**

This course focuses on the science of the mental structures and processes involved in perception, attention, memory, problem solving, language use, consciousness, concept formation, reasoning, and decision making. 3 credit hours

**PSY 521 BIOLOGICAL BASIS OF BEHAVIOR**

As it is possible to link the workings of individual nerve cells to observable behavior, this course focuses on the mental processes that underlie how humans and other select organisms, perceive, learn, remember and behave. 3 credit hours

**PSY 531 RESEARCH METHODS**

Focuses on the problems and procedures of research sciences with emphasis on understanding the basic types of research, the development of sound research design, conducting an appropriate experiment, and utilization of an effective writing style for preparing and reporting research. 3 credit hours
Spring

PSY 602 COUNSELING

This course provides students with a solid overview of the counseling field. Topic covered include the traditional and current roles of a counseling psychologist, legal and ethical guidelines used in counseling practices, and major therapeutic approaches as they can be applied to the counseling setting.

PSY 607 STATISTICS

This course is designed to integrate statistical concepts with real-world examples so that students can have a greater appreciation of statistics as a tool to analyze and validate psychological data.

PSY 631 DEVELOPMENTAL PSYCHOLOGY

This course introduces students to the major theories that have shaped psychologists’ understanding of human growth and development from conception, childhood and adolescence, to early, middle and late adulthood. Aspects of development discussed include biosocial, cognitive and psychosocial changes. Emphasis is placed on developmental problems and diagnosis of abnormal development. 3 credit hours

PSY 698 SPECIAL TOPICS IN PSYCHOLOGY

Topics will be announced on a semester-by-semester basis. Course goals, objectives and content will be determined by the topic. 3 credit hours

Summer

PSY 611 MEMORY

This course provides students with an overview of the multifaceted psychological study of memory. This course is predicated on the belief that an understanding of memory requires awareness of memory issues from a variety of perspectives, including psychobiological, developmental, neuropsychological, the traditional cognitive perspective, and applied perspectives. Prerequisite: PSY 511. 3 credit hours

PSY 677 INTERNSHIP

A 90-hour internship provides the student with on-site experience and a solid understanding of careers in the mental health, research or clinical setting. Additionally, internships allow students the opportunity to participate in the learning experience while developing professional contacts
in their area of specialization. Internships require instructor approval. Prerequisite: *Completion of 18 PSY credits at the graduate level.* 6 credit hours

**PSY 760 PSYCHOPATHOLOGIES**

Humans have been trying to understand the bases of psychopathologies for thousands of years. This course provides students with the most current information regarding the etiologies and subsequent treatments, of the most prevalent mental illnesses in our society. *Prerequisites: PSY 504, PSY 511, PSY 521, PSY 531, PSY 602.* 3 credit hours

**PSY 797 THESIS GUIDANCE**

This course focuses both on the process of developing and writing a Masters level thesis consistent with the student’s interests and career goals. Special attention will be focused on the development of an effective scientific writing style with an individual faculty member using a mentorship model. *Prerequisites: Completion of 18 credits at the graduate level.* 6 credit hours

Education

Virginia A. Batchelor, Associate Professor, Education
B.A., State University of New York Empire State College
M.S., State University of New York College at Buffalo
M.Ed., Ph.D., State University of New York at Buffalo

Alice Blake-Stalker, Assistant Professor, Education
B.A., D’Youville College
M.A., North Carolina Central University
M.A., Clark–Atlanta University
Ph.D., University of Georgia

William Boatwright, Visiting Instructor, Education
B.A., St. John Fisher College
M.S.Ed., St. John Fisher College

Christopher A. Bogden, Visiting Assistant Professor, Education
B.S., M.S., Ed.D., Cornell University

Faith N. Burke, Professor, Education
B.A., Mary Baldwin College
Ed.M., State University of New York at Buffalo
Ed.D., Columbia University

Craig G. Centrie, Assistant Professor, Education
B.A., State University of New York College at Buffalo
M.A., Ph.D., State University of New York at Buffalo

Claudia T. Conway, Clinical Assistant Professor, Education
B.S., Miami University (Ohio)
M.S.Ed., University of Pennsylvania

Elaine Correa, Associate Professor, Education
B.A., Brock University
M.A., Concordia University
Ph.D., McGill University

Suzanne E. D’Amato, Assistant Professor, Education
B.S., M.S.Ed., State University College at Buffalo
M.S.Ed., Canisius College
Ph.D., State University of New York at Buffalo
Salvatore D’Amato, Visiting Instructor, Education
B.F.A., Niagara University
M.S.Ed., Canisius College

Jeffrey A. Faunce, Visiting Instructor, Education
B.A., Albright College
M.A., State University of New York at Buffalo
M.A., Canisius College

Patricia K. Heffernan, Visiting Assistant Professor, Education
B.S., M.S.Ed., Pennsylvania State University
Ed.D., State University of New York at Buffalo

Sharon Kulhanek, Professor, Education
B.S.Ed., Mt. St. Joseph Teachers College
M.A., Ed.D., State University of New York at Albany

Illana R. Lane, Assistant Professor, Education
B.A., Pennsylvania State University
M.Ed., Ph.D., State University of New York at Buffalo

Belete K. Mebratu, Assistant Professor, Education
B.Ed., Bahir Dar Teachers College
M.A., Addis Ababa University
Ph.D., State University of New York at Buffalo

Francis M. Murphy, Professor, Education
B.S., St. John Fisher College
Ph.D., Syracuse University

Carol O’Connor, Clinical Instructor, Education
B.S., M.S.Ed., State University College of New York at Buffalo

Donald O’Connor, Clinical Instructor, Education
B.S., M.S.Ed., State University College of New York at Buffalo

Sarah Pfenninger, Assistant Professor, Education
B.A., M.S.Ed., State University of New York College at Potsdam

Louis Sandler, Assistant Professor, Education
B.A., Loyola College
M.S., Ph.D., University of Oregon

Thomas Scheira, Assistant Professor, Education
B.A., Ed.M., Ph.D., State University of New York at Buffalo
Mary Beth P. Scumaci, Clinical Instructor, Education
B.S., M.S.Ed., State University of New York at Geneseo

Jane F. Scura, Visiting Assistant Professor, Education
B.A., Mercyhurst College
C.A.S., State University of New York at Brockport
Ed.D., NOVA Southeastern University

Karen L. Selby, Professor, Education
B.A., Kalamazoo College
M.A., Columbia University
Ph.D., University of Michigan

Lawrence J. Sformo, Clinical Assistant Professor, Education
B.S., M.S., State University of New York at Brockport

Susan M. Sprague, Clinical Assistant Professor, Education
B.S., State University of New York College at Buffalo
M.S., Canisius College

Virginia S. Stolarski, Associate Professor, Education
B.A., State University of New York at Buffalo

Marcia Swiatek, Clinical Assistant Professor, Education
B.S., M.S., State University College at Buffalo

**Mental Health Counseling & Psychology**

Robert Hawes Johnson III, Associate Professor, Mathematics and Sciences & Interdisciplinary Studies
B.S., Belmont Abbey College
M.S., Western Carolina University
Ph.D., University of South Carolina

Judith M. Horowitz, Associate Professor, Social Sciences
B.A., M.A., Ph.D., State University of New York at Buffalo

Deborah A. Legge, Assistant Professor, Social Sciences
B.S., State University of New York, Empire State College
M.S., State University of New York at Buffalo
Ph.D., State University of New York at Buffalo

Bridget C. Marinaccio, Assistant Professor, Social Sciences
B.A., M.S., Canisius College
Ph.D., State University of New York at Buffalo
Glenn W. Morrow, Associate Professor, Mathematics and Sciences
B.Sc., Ph.D., University of British Columbia

Todd C. Riniolo, Associate Professor, Social Sciences
B.S., State University of New York College at Buffalo
Ph.D., University of Maryland College Park
